## BARN STRUCK BY LIGHTNING

A Disastrous Fire Occurred In Madison Township During the Storm Last Evening.

## JOHN PATERSON LOST ALL

The Grain In His Barn and the Building Was Burned to the Ground.

## THE LOSS WILL BE HEAVY

A barn belonging to John Patterson, of Madison township, was struck by lightning last evening between 6 and 7 o'clock and was burned to the ground.

The loss will be heavy, as Mr. Patterson had just finished threshing and had 100 bushels of wheat stored in the barn at the time of the fire.

Besides this the barn contained 14 tons of hay, all the harness owned by Mr. Patterson, farming implements and a quantity of other articles which go to make up a well stocked farm.

There was just one fortunate feature about the affair, and that was the fact that last evening was the first time in three years that the barn did not contain live stock of some sort. Had it not been for this lucky occurrence the loss would have been greater by several hundred dollars.

No insurance was carried on the contents of the building, but the barn itself was insured for a small amount, not sufficient, however, to cover the loss.

When the word reached this city, where Mr. Patterson is well known, the expressions of sympathy for his loss were general. He is one of the most prominent farmers in the township, having taken the decennial appraisal there this year.

## ALL DAY.

Business Houses Will Probably Decide to Close Their Places of Business Monday.

A movement was started this morning which will doubtless result in all the business houses in the city closing the entire day next Monday.

The first move was made by the clothiers, who signed a paper signifying their willingness to close on that day. The paper was then taken by the shoe people, who are meeting with good success in their line.

Many of the merchants of the city have decided to participate in the parade with a display, and in order that this part of the celebration may be made a complete success there is a disposition on their part to remain closed the entire day.

At the meeting of Trades Council tomorrow night steps will be taken to give the business men whatever assistance they may require in arranging their displays.

## REV. BALL

Will Probably Get a Call to the Pastorate of the First Presbyterian Church.

Tomorrow evening the congregation of the First Presbyterian church will meet for the purpose of calling a pastor.

The indications are that the choice will lie between Rev. Ball, of Utica, N. Y.; Rev. Jordan, of Ironton, O., or Rev. Roemer, of Cleveland.

As the matter stands now a majority of the congregation seem to be in favor of Rev. Ball.

## TO COOL KILNS.

THOMPSON POTTERY ADOPT A NOVEL SCHEME.

Ten Electric Fans Have Been Purchased And Will be Placed at the Mouth of the Kiln.

A novel device has been put in use at the Thompson pottery, and should it prove successful after trial today, it will doubtless be adopted for general use.

The firm has purchased 10 electric fans, and yesterday they were placed at the openings of No. 9, from which the fire had just been turned, and it is thought a great saving of time waiting for kilns to cool sufficiently to work in, will be the result.

Practical men, however, claim that unless the air is very carefully regulated when first turned into the kiln, the ware will crack.

It is thought the kiln will be sufficiently cool to examine the result of the experiment some time today.

## SETTLED THE CASE.

Usleton Confessed Judgment in the Sum of \$55 in Squire McCarron's Court.

Last Tuesday J. W. Bennett sued J. M. Usleton, who conducts a second-hand furniture business on Market street, for \$55, claimed due for labor.

The suit was entered in the court of Justice McCarron, and money in the hands of George Todd, of East End, and a horse, harness and wagon were attached.

On Thursday Usleton confessed judgment for the full amount, and this morning the matter was disposed of by Usleton paying the bill, together with the costs, which amounted in all to about \$68.

## FILED AN ACTION.

Heirs of the Late Jacob Stouffer, of Fairfield Township, Want His Property Partitioned.

Lisbon, Aug. 28.—(Special.)—The heirs of the late Jacob Stouffer, of Fairfield township, filed action this morning to partition the land in the estate, which consists of eight acres in Fairfield township, aggregating 158 acres.

Eli Stouffer, who is entitled to a one-seventh interest, filed the suit against Henry N. Stouffer and others.

## WILL SELL THE HORSES.

No Person Has Claimed the Animals Captured at Gardendale Two Weeks Ago.

The horses which were found near Gardendale several weeks ago and which have been in charge of the authorities since that time, will be sold at auction tomorrow.

They have been kept at the barn of Frank Dickey.

## COUNCIL.

A Lengthy Session is Expected if a Report in Regard to Sewers is Presented.

Lisbon, Aug. 28.—(Special.)—No will was found in the estate of Samuel L. Byatt, late of Liverpool township, and Judge Boone today appointed

ed Hannah Byatt administrator, with \$500 bond.

Joseph Cartwright, Bert Ansley and R. L. Edmonston were chosen to make the appraisement.

## A DIRTY STREET.

Residents of West Market Street Think That Thoroughfare Should be Cleaned.

Residents of West Market street are complaining of the condition of that thoroughfare from the Diamond to the Horn switch.

The section gang of the street railway company in removing the bricks from the space occupied by the track piled them up on the side of the street and apparently no attention was paid to the order or arrangement of the piles, as they are scattered about all over the pavement.

Wagons have been left standing in the street where the teamsters unhitched, and several inches of mud covers the street all the way out, so that it would be impossible to tell whether it was a paved street.

The whole street has the appearance of a suburban or village road instead of one of the principal up town thoroughfares of a thoroughly modern city.

## IT EXPLODED.

Mrs. Rigby Threw Some Powder in the Fire and She Got Burned.

Mrs. Horace Rigby, of California Hollow, met with a painful accident yesterday.

Mrs. Rigby threw a piece of paper containing powder in the fire and it exploded in her face, severely burning her left eye.

## JAMES RILEY WAS A SOLDIER

He Got Drunk and Insisted on Telling About the Time He Served

## WITH GENERAL PHIL. SHERIDAN

His Tale of Woe Didn't Interest the Spectators and He Became Very Angry.

## OFFICER WOOD ARRESTED HIM

Jackson square was last night the scene of a most disgraceful affair, which was witnessed by the whole community.

Some time during the afternoon yesterday James Riley, who conducts a cobbling shop on the Calcutta road, having a little more liquor aboard than he could comfortably handle, in some manner gained access to the hay mow at the livery barn of H. S. Rinehart.

No one about the place was aware of his presence until about 7:30 in the evening when he made his appearance in the lower part of the barn.

Stable Boss Tim Moffat was talking to some men when Riley came up. He said he had fought during the rebellion with Phil Sheridan and several other prominent generals and when it came to fighting he could give any one about the place pointers on the manly art of self defense.

Moffat, without paying much attention to the man, remarked that he remembered of hearing Sheridan and the other generals talk about Riley.

This was enough to get Mr. Riley going, and when his Irish was up he proved to be a terror. He swore and fumed, and the longer he talked the madder he became until several hundred people had assembled, thinking it was our time for a little riot.

For about half an hour Riley held full sway, accusing everybody of insulting him, especially the colored people about the barn, of which there are several. His profanity was something awful to listen to and finally when he was tired he started home.

Officer Wood got hold of him on the way and brought him back to the barn, where he was held until the patrol arrived. He was taken to jail still cursing in a frightful manner. A charge of using profane and indecent language was placed against him.

Jerome McCormick was drunk on Lower Broadway last night and Officer Gill run him in. A charge was made against him of drunk and disorderly, and he will get a hearing today.

Charley Hamilton appeared at the mayor's office yesterday and pleaded guilty to disorderly conduct. He is the man who took it into his head to assist the allies in exterminating the Chinese Saturday night. Mayor Davidson fined him \$6 60, which he paid.

When given a hearing today McCormick was fined \$6 60 and Riley got a like dose.

## Seriously Ill.

Word was received in the city this morning of the serious illness of the little child of Mr. and Mrs. Daniel McKeever at their home in East Palestine. Mr. and Mrs. McKeever formerly resided in this city and are well known here.

# THE BENEFIT WAS A SUCCESS

In the Neighborhood of One Hundred and Thirty-five Dollars to Be Given Howard.

## ECLIPSE DEFEATED SHAMROCKS

In One of the Snappiest and Best Played Ball Games of the Season.

## MAHONY FAILED TO SHOW UP

The benefit given at Rock Springs yesterday afternoon for Doc Howard was an immense success and netted the old-time ball player the sum of \$135, which will be used in sending him to a hospital, where he will take treatment for rheumatism.

The base ball situation in the city is now in a more complicated shape than ever and it will take another series to decide the championship of the city.

The game yesterday between the Shamrocks and Eclipse clubs was a beauty, the Eclipse boys winning by a score of 6 to 5. Barker, who was pitching for the Shamrocks, had his hand split by a hot liner from the bat of Ashbaugh, and Chambers had to pitch the game out.

Mahony, of Youngstown, who was to run Charles Walsh, failed to put in an appearance, and Cooley took his place, defeating Walsh by a few feet.

The race between Colley and Still-The race between Cooley and Still-John Coleman won the boys' race.

### Market for Ohio Products.

Ohio manufactures and farm products are finding a ready market in Cuba, Porto Rico and the Philippines. The exports to those islands in the fiscal year 1900 were \$47,000,000 in value against \$17,000,000 in 1898, and included large quantities of the class of goods made in Ohio factories and grown on Ohio farms.

Among these were \$10,000,000 worth of manufactures of iron and steel; \$6,000,000 worth of provisions; nearly \$6,000,000 worth of breadstuffs, and \$3,000,000 worth of cattle.

When you can count farm and factory exports to the islands in amounts of from three to ten million dollars in each class, it is a poor time for the "Little America" candidate to ask for votes among farmers and working men.

### At Massillon Hospital.

Massillon Independent.

During the week ending today five patients were received at the hospital. Three of these were women, two from Columbian county and one from Stark county, and two men from Harrison and Wayne counties.

The health of the patients and attaches has never been better. Contrary to expectations, the fevers which are common where there is an abundance of freshly turned soil, have made no appearance on the hill. Hay fever, another common ailment of the season, does not claim a victim at the hospital.

### Rev. Reager is ill.

No services were held at the First M. E. church last evening on account of the illness of Rev. J. S. Reager, the pastor. Presiding Elder Holmes conducted the morning services.—Steubenville Herald.

Rev. Reager was formerly pastor of the M. E. church, Wellsville, and has many friends here who will be sorry to learn of his illness.

### Population of Alliance.

The Review announces in a semi-

official way that the population of Alliance, under the new census, is 8,975. These figures show an 18 per cent gain over the population of a decade ago.

## ULSTER COUNTY GAZETTE.

The Circulation of That Celebrated Sheet Must Have Been More Than 10,000 Copies.

Newspaperdom.

Contrary to general belief, which credit its small circulations to the newspapers published early in the century, is the almost continuous proof of the widespread circulation of the dear old Ulster County Gazette, published in Kingston, N. Y. Daily and almost hourly "discoveries" of copies of this paper containing accounts of the death and burial of the Father of his country, are chronicled in the American press.

In the face of strong circumstantial evidence thus produced, the circulation of the Gazette for the two issues named must be placed at more than 10,000 copies, with some thousands, no doubt, yet to be "discovered."

Laborious, indeed, and long continued, must have been the mechanical production of such editions with the primitive methods available at the time. Working day and night, and using one hand press, at least five days would be required for the printing of each of the issues.

Wonderful industry; excelled only his country, are chronicled in the of this old and well-advertised journal.

## OFFICER MILLER.

Instructed the Armour Company to Stop Driving Their Horse.

Yesterday Humane Officer Miller decided that the horse used by the Armour company was in need of a rest. He notified the company that they must stop driving the animal or they would get into trouble.

The horse was sent to the country. The humane officer is determined that all horses in the city that should not be driven shall be taken out of the wagons and given a rest.

## PAPER ON STREETS.

The Ordinance on the Subject Should be Enforced and Streets Kept Clean.

The practice of throwing paper on the streets does not abate in the least, and yesterday morning at the corner of Sixth street and Broadway it looked as though a county fair might have taken place the day previous.

The ordinance on the subject should either be enforced or be declared a dead letter.

### He Cut It Down.

Over in Salem the telephone people set a pole on the property of Attorney B. S. Ambler, in violation, it is claimed, of a written agreement. Mr. Ambler notified the company that the pole must be removed within 24 hours. This was not heeded and Mr. Ambler laid the axe to the root of the pole and cut it down. The telephone company put the pole up again, but not on Ambler's property.

### Resigned His Charge.

Cleveland Leader.

Rev. Herbert L. Gaylord, curate of Trinity Protestant Episcopal cathedral parish for three years, has resigned to accept a charge at Steubenville, O. He has accepted the rectorship of St. Stephen's church in that city and will take charge September 1. Rev. Arthur Dumper, a former Gambier student, will take Rev. Mr. Gaylord's place.

### Water Works System.

Geneva on Saturday voted for a \$60,000 water works system. J. B. Strawn, of Salem, submitted the plans that were adopted.

## ASK YOUR NEIGHBOR.

Hundreds of East Liverpool Citizens Can Tell You All About It.

Home endorsement, the public expression of East Liverpool people should be evidence beyond dispute for every East Liverpool reader. Surely the experience of friends and neighbors, cheerfully given by them, will carry more weight than the utterances of strangers residing in far-off places. Read the following:

Mr. Samuel Mayer, who is an employee of the McNicol pottery, whose place of residence is 183 Bank street, says: "My health was fairly good until my kidneys began to trouble me, causing my back to ache a good part of the time and to get sore and lame across the loins. The pain was often sharp and penetrating, especially when stooping or lifting, and I never got rid of the trouble until I procured Doan's Kidney Pills at the W. & W. pharmacy and tried them. When I had taken one box the soreness and pains in the back and other symptoms of kidney distress passed away."

Sold for 50 cents per box by all dealers, Foster-Milburn Co., Buffalo, No., sole agents for the U. S.

Remember the name—Doan's—and take no other.

### America's Objective in China.

Looking candidly into the future, the United States will therefore endeavor, whether in co-operation with Great Britain and other nations or not, to preserve the integrity of the Chinese empire, and prepare the way for a legitimate, untrammelled, material exploitation of China's vast resources. The United States has everything to lose and nothing to gain by the division of China. With China's area intact, America will find markets and opportunities there unrivaled by any yet undeveloped in other parts of the world. Even the most optimistic prophecies of the future of South America and Africa do not rival those that can be reasonably and logically made of China and neighboring portions of Asia.—Hon. John Barrett, in the Engineering Magazine for September.

### Adjourned Meeting.

Trades and Labor Council will hold an adjourned meeting on Wednesday evening, August 29, 1900, at 8 o'clock, for the purpose of perfecting arrangements for Labor Day. A full attendance is desired.

By order of

### Murder and Suicide.

New York, Aug. 28.—H. H. Stridron, a lumber merchant of Baltimore, was shot in the back of the head and through the eye at the Hotel Vendome by H. J. Ford, who registered from Boston. Ford then committed suicide by blowing out his brains. From circumstances attending the crime it appears to have been premeditated, but no cause is known.

### Amalgamated Association's Demands.

Wheeling, Aug. 28.—Eight lodges of the Amalgamated association have voted against and recession from the original demands upon the manufacturers as to the iron and tinplate scales.

### Take Notice.

## Hoobes Nominated Dewey.

At last Admiral Dewey has received a presidential nomination. He and Philippine Joe (alias Yellowstone, alias Red, alias Irish Mack), whose real name is Michael Brazill, of Faribault, Minn., were nominated for president and vice president of the United States last Wednesday at the fourth annual convention of hoobes.

There was no opposition to Dewey, and his name went through with a whoop. The tramps were opposed to McKinley on the ground that he wanted to give work to everybody. They were opposed to Bryan, saying free silver was not enough, they wanted free beer and free railroad rides.

"Tomato Can" Smith, of Michigan, made a hit when he declared they were in favor of Dewey because the admiral had not had a home for 40 years, and then just as soon as he got one he gave it away.

### Hemphill's Side of It.

Twenty-five of the business men and citizens of Irondale went before Mayor Dennis, of Wellsville, and made affidavits which Dr. Hemphill will use in his defense before the state medical board of registration at Columbus on October 2.

It has been charged that Dr. Hemphill drinks to excess, and an effort is to be made to deprive him of his certificate. All the affidavits are of the same general tenor. They stated it to be the belief of the affiants that the charges against Dr. Hemphill were without foundation. One man stated in his affidavit that in his opinion the charges against Dr. Hemphill were inspired by jealousy and for the purpose of freezing him out.

—Mr. and Mrs. E. H. Jarvis have returned from a week's visit with Mr. Jarvis' parents at Tiltonville.

## What Makes Beauty?

Beauty is made or marred by the blood. When the blood is impure, the cheeks grow sallow, the eyes dull, the hair loses its luster. When the blood flows through the veins in a pure, rich current, the eyes sparkle, the skin is clear, the complexion beautiful. Women who use Dr. Pierce's Golden Medical Discovery, find that it is a genuine beautifier. By purifying and enriching the blood it puts a bloom on the cheek and a brightness in the eye, which tell the story of perfect health.

"Having been left weak from fever last October, I was under the doctor's care here," writes Mrs. Alice E. Casquier, of Crawford, Dawes Co., Neb. "I took medicine, but did not seem to gain very much. I was tired all the time, had no appetite, had wandering pains all over me more or less, and was very nervous, as I had been sick all the summer. I was all run-down and didn't know what ailed me. I got advice from Dr. Pierce, telling me my symptoms better than I could describe them myself, and also telling me that I would have to take care of myself, and how to take the medicines. I took four bottles of 'Golden Medical Discovery,' and five of 'Favorite Prescription,' and gained strength right along. I took one bottle of the 'Pleasant Pellets,' also. I know that these medicines will do all that they are recommended to do."

Use Dr. Pierce's Pleasant Pellets for sluggish liver.

## THE NEWS REVIEW

# THE BENEFIT WAS A SUCCESS

In the Neighborhood of One Hundred and Thirty-five Dollars to Be Given Howard.

## ECLIPSE DEFEATED SHAMROCKS

In One of the Snappiest and Best Played Ball Games of the Season.

## MAHONY FAILED TO SHOW UP

The benefit given at Rock Springs yesterday afternoon for Doc Howard was an immense success and netted the old-time ball player the sum of \$135, which will be used in sending him to a hospital, where he will take treatment for rheumatism.

The base ball situation in the city is now in a more complicated shape than ever and it will take another series to decide the championship of the city.

The game yesterday between the Shamrocks and Eclipse clubs was a beauty, the Eclipse boys winning by a score of 6 to 5. Barker, who was pitching for the Shamrocks, had his hand split by a hot liner from the bat of Ashbaugh, and Chambers had to pitch the game out.

Mahony, of Youngstown, who was to run Charles Walsh, failed to put in an appearance, and Cooley took his place, defeating Walsh by a few feet.

The race between Colley and Still-The race between Cooley and Still-John Coleman won the boys' race.

### Market for Ohio Products.

Ohio manufactures and farm products are finding a ready market in Cuba, Porto Rico and the Philippines. The exports to those islands in the fiscal year 1900 were \$47,000,000 in value against \$17,000,000 in 1898, and included large quantities of the class of goods made in Ohio factories and grown on Ohio farms.

Among these were \$10,000,000 worth of manufactures of iron and steel; \$6,000,000 worth of provisions; nearly \$6,000,000 worth of breadstuffs, and \$3,000,000 worth of cattle.

When you can count farm and factory exports to the islands in amounts of from three to ten million dollars in each class, it is a poor time for the "Little America" candidate to ask for votes among farmers and working men.

### At Massillon Hospital. Massillon Independent.

During the week ending today five patients were received at the hospital. Three of these were women, two from Columbiana county and one from Stark county, and two men from Harrison and Wayne counties.

The health of the patients and attaches has never been better. Contrary to expectations, the fevers which are common where there is an abundance of freshly turned soil, have made no appearance on the hill. Hay fever, another common ailment of the season, does not claim a victim at the hospital.

### Rev. Reager is ill.

No services were held at the First M. E. church last evening on account of the illness of Rev. J. S. Reager, the pastor. Presiding Elder Holmes conducted the morning services.—Steubenville Herald.

Rev. Reager was formerly pastor of the M. E. church, Wellsville, and has many friends here who will be sorry to learn of his illness.

### Population of Alliance.

The Review announces in a semi-

official way that the population of Alliance, under the new census, is 8,975. These figures show an 18 per cent gain over the population of a decade ago.

## ULSTER COUNTY GAZETTE.

The Circulation of That Celebrated Sheet Must Have Been More Than 10,000 Copies.

Newspaperdom.

Contrary to general belief, which credit its small circulations to the newspapers published early in the century, is the almost continuous proof of the widespread circulation of the dear old Ulster County Gazette, published in Kingston, N. Y. Daily and almost hourly "discoveries" of copies of this paper containing accounts of the death and burial of the Father of his country, are chronicled in the American press.

In the face of strong circumstantial evidence thus produced, the circulation of the Gazette for the two issues named must be placed at more than 10,000 copies, with some thousands, no doubt, yet to be "discovered."

Laborious, indeed, and long continued, must have been the mechanical production of such editions with the primitive methods available at the time. Working day and night, and using one hand press, at least five days would be required for the printing of each of the issues.

Wonderful industry; excelled only his country, are chronicled in the of this old and well-advertised journal.

## OFFICER MILLER.

Instructed the Armour Company to Stop Driving Their Horse.

Yesterday Humane Officer Miller decided that the horse used by the Armour company was in need of a rest. He notified the company that they must stop driving the animal or they would get into trouble.

The horse was sent to the country. The humane officer is determined that all horses in the city that should not be driven shall be taken out of the wagons and given a rest.

## PAPER ON STREETS.

The Ordinance on the Subject Should be Enforced and Streets Kept Clean.

The practice of throwing paper on the streets does not abate in the least, and yesterday morning at the corner of Sixth street and Broadway it looked as though a county fair might have taken place the day previous.

The ordinance on the subject should either be enforced or be declared a dead letter.

### He Cut It Down.

Over in Salem the telephone people set a pole on the property of Attorney B. S. Ambler, in violation, it is claimed, of a written agreement. Mr. Ambler notified the company that the pole must be removed within 24 hours. This was not heeded and Mr. Ambler laid the axe to the root of the pole and cut it down. The telephone company put the pole up again, but not on Ambler's property.

### Resigned His Charge.

Cleveland Leader.

Rev. Herbert L. Gaylord, curate of Trinity Protestant Episcopal cathedral parish for three years, has resigned to accept a charge at Steubenville, O. He has accepted the rectorship of St. Stephen's church in that city and will take charge September 1. Rev. Arthur Dumper, a former Gambier student, will take Rev. Mr. Gaylord's place.

### Water Works System.

Geneva on Saturday voted for a \$60,000 water works system. J. B. Strawn, of Salem, submitted the plans that were adopted.

## ASK YOUR NEIGHBOR.

Hundreds of East Liverpool Citizens Can Tell You All About It.

Home endorsement, the public expression of East Liverpool people should be evidence beyond dispute for every East Liverpool reader. Surely the experience of friends and neighbors, cheerfully given by them, will carry more weight than the utterances of strangers residing in far-off places. Read the following:

Mr. Samuel Mayer, who is an employee of the McNicol pottery, whose place of residence is 183 Bank street, says: "My health was fairly good until my kidneys began to trouble me, causing my back to ache a good part of the time and to get sore and lame across the loins. The pain was often sharp and penetrating, especially when stooping or lifting, and I never got rid of the trouble until I procured Doan's Kidney Pills at the W. & W. pharmacy and tried them. When I had taken one box the soreness and pains in the back and other symptoms of kidney distress passed away."

Sold for 50 cents per box by all dealers, Foster-Milburn Co., Buffalo, No., sole agents for the U. S.

Remember the name—Doan's—and take no other.

### America's Objective in China.

Looking candidly into the future, the United States will therefore endeavor, whether in co-operation with Great Britain and other nations or not, to preserve the integrity of the Chinese empire, and prepare the way for a legitimate, untrammeled, material exploitation of China's vast resources. The United States has everything to lose and nothing to gain by the division of China. With China's area intact, America will find markets and opportunities there unrivaled by any yet undeveloped in other parts of the world. Even the most optimistic prophecies of the future of South America and Africa do not rival those that can be reasonably and logically made of China and neighboring portions of Asia.—Hon. John Barrett, in the Engineering Magazine for September.

THE NEWS REVIEW

# "DEAR BOY" LETTERS.

My Dear Boy—In your last letter you say that old man Skinner, your employer, says that he "doesn't see what a farmer can be thinking of to vote for McKinley when the trusts are squeezing the life out of the farmers and the country is drifting right into imperialism every day."

You want to know how to answer him. Well, I will tell you what to say to him and then I have a few words to say to you.

Ask Mr. Skinner if he remembers that in 1896 he sold that sorrel mare that used to work on the nigh side with old Jim for \$45. Ask him whether the sorrel wasn't a better horse than that bay he sold to Crawford the other day for \$80. Remind him that he sold his wool in 1896 for 14 cents, and that he sold this year at 27 cents, and kicked like a steer because he didn't get 30.

Gently suggest that he sold a couple of steers in 1896 for \$3.25 per hundred, and that they were as good as those splendid fellows that he sold last week for \$5.10.

The old man runs a huckster wagon into Nelsonville and sells produce to the miners' wives. Ask him if he remembers four years ago a woman would come out to the wagon and say:

"Can you let me have a peck of potatoes and trust me till John gets work?"

Remind him that the same woman comes out now and says: "Give me three dozen of eggs and two pounds of butter. What are those peaches worth? I'll take a basketful of them. Give me a peck of those tomatoes. How much does it all come to? Here's your money. When are you going to bring in some veal? John likes veal for breakfast."

Ask him if he doesn't know that more money has been paid out as wages to working men during the past year than in any other year in the history of the Hocking Valley. Ask him whether a considerable part of this money hasn't found its way into his capacious pocketbook.

Remind him that he told me that whenever the Mayhew farm is put up for sale he intends to bid on that upper eighty that joins his, and that he has made enough money in the last two years to pay for it.

And then gently suggest that he doesn't appear to be suffering much from imperialism or trusts either. Tell him that perhaps he had better let well enough alone. Tell him that when trade is good and business confidence strong and healthful, it is not wise to tear the whole thing down by giving the administration in untried hands.

I think that this is the only kind of argument that will touch old man Skinner, but you, my boy, have a larger soul. I want to say some other things to you.

My boy, thank God that you live in a country prosperous at home and honored abroad, and never so prosperous and honored as now.

When you come to vote this fall, remember that the national credit has reached its highest point; that the work of American laborers has gained its highest reward, and that the glory of American arms on land and sea has been most widely maintained under the wise, thoughtful, patriotic administration of William McKinley.

Remember that this administration is carrying out the principles and policy of the Republican party.

Remember that the blood of four generations of American soldiers runs in your veins, and then vote so that you will not be ashamed of your vote on the day after election.

## CROSSLEY BACK.

After Placing Machinery in a Big East Liverpool Pottery.

True American.

Joseph Crossley, of the Crossley Manufacturing company, of this city, has just returned from East Liverpool, where for several weeks he has been engaged in placing machinery in the Taylor, Lee & Smith pottery.

Mr. Crossley is at the head of the firm manufacturing the machinery placed in the pottery and he personally superintended the work of putting it in position.

All the machinery placed in the plan was manufactured by the Trenton concern. The two clay presses, which are 75-chamber capacity each, are the patent of the Crossley company. The leaves are square instead of round, as is the usual shape for those made in the west.

Mr. Crossley remained in East Liverpool until everything was in working order. Clay has already been made on the presses. The gentleman stated that his company now has an order for the largest clay presses ever constructed. The order includes ten 100-chamber presses. They are for the American Kaolin company, of Leesburg, Fla.

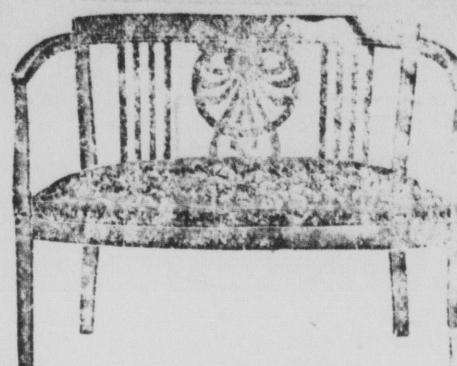

This company will use the presses in washing their clay before shipping it to the different potteries.

# "DEAR BOY" LETTERS.

My Dear Boy—In your last letter you say that old man Skinner, your employer, says that he "doesn't see what a farmer can be thinking of to vote for McKinley when the trusts are squeezing the life out of the farmers and the country is drifting right into imperialism every day."

You want to know how to answer him. Well, I will tell you what to say to him and then I have a few words to say to you.

Ask Mr. Skinner if he remembers that in 1896 he sold that sorrel mare that used to work on the nigh side with old Jim for \$45. Ask him whether the sorrel wasn't a better horse than that bay he sold to Crawford the other day for \$80. Ask him if he doesn't know that more money has been paid out as wa-

ges to working men during the past year than in any other year in the history of the Hocking Valley. Ask him whether a considerable part of this money hasn't found its way into his capacious pocketbook.

Remind him that he told me that whenever the Mayhew farm is put up for sale he intends to bid on that upper eighty that joins his, and that he has made enough money in the last two years to pay for it.

And then gently suggest that he doesn't appear to be suffering much from imperialism or trusts either. Tell him that perhaps he had better let well enough alone. Tell him that when trade is good and business confidence strong and healthful, it is not wise to tear the whole thing down by giving the administration in untried hands.

I think that this is the only kind of argument that will touch old man Skinner, but you, my boy, have a larger soul. I want to say some other things to you.

### BRYAN'S BATTERIES.

Buncombe Billy pleads for peace, and at the sametime advocates a theory which, if carried into practical effect, would require the United States to possess a navy which could bid defiance to the navies of the whole civilized world, and require a monied expenditure sufficient to impoverish and bankrupt the nation.

limits a grand citizenship—a citizenship which, when fully aroused on any vital point or feature, will make disturbers and malcontents stand from under. Would to God that we possessed the power to awaken this good citizenship fully to the enormity of the premeditated crime of the liquor traffic of this immediate section. The drinking habit is becoming a fearful evil in this city. Dens are so constructed that male and female tipplers can have full swing in their use of intoxicants, and drinking among women is fearfully on the increase. The sending of little children, mere boys and girls, to saloons for pitchers and pails of beer, is also an accursed thing, and is sowing seed which will result in an awful harvest of woe, sin and crime. One well known business man of this city branded the writer as a fanatic on the liquor question, asserting that

In Russia, Sweden, Denmark and Norway the average may be put down at £10 a year, and a like amount is a fair estimate in Italy.

In Switzerland, owing perhaps, to the enormous floating hotel population, the price rises to £16, but then Switzerland is naught else but one gigantic hotel for the convenience of travelers. Crossing the Atlantic, we find that in the United States of America a good general servant expects £30 a year, and in Canada about £2 less.

In both instances these sums may be offered freely without obtaining any response, because the same circumstances exist in those countries as in Great Britain—that is to say, the desire for greater independence and a growing dislike to domestic service.

The highest point is reached in the Cape Colony, where a white woman, unless very well paid, considers it beneath her dignity to accept any inferior post.

In Natal the average wage is only slightly lower, £42 a year being a fair figure. Here again the Zulus in this vicinity, a man who takes in the country at large, with plenty of money back of him when he desires to see the sights; and this same sport asserts that a fraction of the evils of the saloons and dens of death in this city has never appeared on the surface or been made known to the public at large, citing one den on Sixth street as viler than the worst dives that ever existed at Five Points, New York city, in her very worst period of crime and iniquity.

### RATE OF WAGES.

Paid Servants and Domestics in the Various Countries of the World.

#### London Mail.

On all sides complaints loud and deep are heard as to the scarcity of servants, and various remedies, more or less practical, have been suggested for the alleviation of the housewife's troubles.

The importation of Chinese servants has been suggested, but this seems a very improbable solution of the difficulty. Of course, the trouble really arises from the spread of education during the last few years, and the preference of young women to enter a more independent sphere of action in shops and houses of business than to confine themselves to the cut-and-dried rules of domestic service.

How to obtain good "generals" is undoubtedly a problem which will grow more difficult to solve than it is at present.

In England it may be taken that the average wages of a general servant are about £15 a year, some times more, some times less, but this seems a fair price to pay.

In France a "bonne-a-tout faire" expects £12 a year, and a German "maga" a like sum.

BRYAN'S BATTERIES.

Buncombe Billy pleads for peace, and at the sametime advocates a theory which, if carried into practical effect, would require the United States to possess a navy which could bid defiance to the navies of the whole civilized world, and require a monied expenditure sufficient to impoverish and bankrupt the nation.

DENS FOR BOTH SEXES.

limits a grand citizenship—a citizenship which, when fully aroused on any vital point or feature, will make disturbers and malcontents stand from under. Would to God that we possessed the power to awaken this good citizenship fully to the enormity of the premeditated crime of the liquor traffic of this immediate section. The drinking habit is becoming a fearful evil in this city. Dens are so constructed that male and female tipplers can have full swing in their use of intoxicants, and drinking among women is fearfully on the increase. The sending of little children, mere boys and girls, to saloons for pitchers and pails of beer, is also an accursed thing, and is sowing seed which will result in an awful harvest of woe, sin and crime. One well-known business man of this city branded the writer as a fanatic on the liquor question, asserting that East Liverpool is a clean city in this particular in comparison with other cities of like size and population throughout the country; and then this business man was called down, good and hot, by a well known sport of this vicinity, a man who takes in the country at large, with plenty of money back of him when he desires to see the sights; and this same sport asserts that a fraction of the evils of the saloons and dens of death in this city has never appeared on the surface or been made known to the public at large, citing one den on Sixth street as viler than the worst dives that ever existed at Five Points, New York city, in her very worst period of crime and iniquity.

RATE OF WAGES.

Paid Servants and Domestics in the Various Countries of the World.

London Mail.

On all sides complaints loud and deep are heard as to the scarcity of servants, and various remedies, more or less practical, have been suggested for the alleviation of the housewife's troubles.

The importation of Chinese servants has been suggested, but this seems a very improbable solution of the difficulty. Of course, the trouble really arises from the spread of education during the last few years, and the preference of young women to enter a more independent sphere of action in shops and houses of business than to confine themselves to the cut-and-dried rules of domestic service.

How to obtain good "generals" is undoubtedly a problem which will grow more difficult to solve than it is at present.

In England it may be taken that the average wages of a general servant are about £15 a year, some times more, some times less, but this seems a fair price to pay.

In France a "bonne-a-tout faire" expects £12 a year, and a German "maga" a like sum.

In Russia, Sweden, Denmark and Norway the average may be put down at £10 a year, and a like amount is a fair estimate in Italy.

In Switzerland, owing perhaps, to the enormous floating hotel population, the price rises to £16, but then Switzerland is naught else but one gigantic hotel for the convenience of travelers. Crossing the Atlantic, we find that in the United States of America a good general servant expects £30 a year, and in Canada about £2 less.

In both instances these sums may be offered freely without obtaining any response, because the same circumstances exist in those countries as in Great Britain—that is to say, the desire for greater independence and a growing dislike to domestic service.

The highest point is reached in the Cape Colony, where a white woman, unless very well paid, considers it beneath her dignity to accept any inferior post.

In Natal the average wage is only slightly lower, £42 a year being a fair figure. Here again the Zulus in domestic service outnumber the white servants by 50 to 1.

In our Australian colonies the demand for good servants is great, increasing and forever unfulfilled.

In New South Wales, for instance, the average wages are £38, in Victoria £32, which is the standard rate in Queensland and New Zealand; in western Australia it rises to £36, and in South Australia, by a curious coincidence, it falls to £25.

Lisbon, Aug. 28.—(Special.)—The work of making up the returns of the census enumerator has been completed in the office of Supervisor Hostetter and has been forwarded to Washington.

Mr. Hostetter has asked repeatedly for permission to make report to the newspapers in his district, but has been notified each time that reports will be made from the census office.

## THE CAKE WALK

It Originated Among the French Negroes of Louisiana Over a Century Ago.

The cake walk proper had its origin among the French negroes of Louisiana more than a century ago, says the New Orleans Times-Democrat.

There is little doubt that it is an offshoot of some of the old French country dances. It resembles several of them in form. From New Orleans it spread over the entire south and thence north.

It was found of convenience to the plantation negroes. They were not wedded by license, and it was seldom that the services of a preacher were called in.

At a cake walk a man might legitimately show his preference for a woman, and thus publicly claim her for a wife. In effect, the cake walk was not different from the old Scotch marriage, which required only public acknowledgement from the contracting parties. So this festival became in some sense a wooing, an acceptance or a rejection and a ceremony. This explains its popularity with the blacks outside of its beauties, with the accompaniment of music, which is competent at all times to command negro support.

Cake walking has improved, as do most things that are constantly practiced. It has lost its old significance in the south. Negroes now get married, when they marry at all, in the white folks' fashion.

It has become, however, a pantomime dance. Properly performed, it is a beautiful one. The cake is not much of a prize, though the negro has a sweet tooth.

Why Maryland is Republican. The bank clearings for Baltimore, the only city in Maryland reported for the month of June, 1899, were \$93,619,30. For the month of June, 1900, they were \$94,797,028. For the first six months of 1894 they were \$331,418,271 and for the first six months of 1900 they were \$562,456,356, an increase of over \$231,000,000. No wonder Maryland is a Republican state.

## CROKER'S STORY.

### HE TOLD WHY TOWNE DID NOT GET SECOND PLACE.

The Reason For This He Illustrated In Lincoln's Way, by Telling a Pertinent Anecdote of a New York Italian Organ Grinder.

Immediately after the Kansas City convention, Richard Croker, the Tammany boss, was reproached by a friend for preventing Charles A. Towne's nomination. The owner of the tiger said he had nothing against Towne, but that 'the boys' thought they could "do up" both Bryan and Hill by nominating the latter for vice president. Then Mr. Croker added that New York was not to be blamed for Towne's defeat.

Said he: "Towne was never in it for a minute after it became known to the delegates that Bryan wanted him. That settled Mr. Towne's hash."

"Why was that, Mr. Croker?"

"Well," said the boss, "there is an old dago on the East Side that owns a lot of hand-organs and monkeys, and hires them out to little dagos, too poor to buy their own outfit. This big dago is mighty hard on them; he treats them rough, and if they fail to bring in what he thinks enough money in the evening, he kicks and cuffs them as if they were dogs. A man who witnessed this conduct asked a little dago why he submitted to such treatment. His answer was: 'He's the boss; he beat me; I have to do what he says; but when I get out in the alley, I kick de monkey.'

"That," said Mr. Croker, "is why Towne was not nominated."

If one will consider that Mr. Towne is the monkey, the Democratic convention the little Italian, and Mr. Bryan the "big dago," the application is plain.

When done, remove them from the oven. Line a two quart mold with butter paste. Have ready one pound of ham cut into dice and four hard boiled eggs cut into slices. Put a layer of pigeon, one of ham and one of egg and then another of pigeon and so on until all the material has been used up. Why Maryland is Republican. The bank clearings for Baltimore, the only city in Maryland reported for the month of June, 1899, were \$93,612,930. For the month of June, 1900, they were \$94,797,028. For the first six months of 1894 they were \$331,418,271 and for the first six months of 1900 they were \$562,456,356, an increase of over \$231,000,000. No wonder Maryland is a Republican state.

## CROKER'S STORY.

### HE TOLD WHY TOWNE DID NOT GET SECOND PLACE.

The Reason For This He Illustrated In Lincoln's Way, by Telling a Pertinent Anecdote of a New York Italian Organ Grinder.

Immediately after the Kansas City convention, Richard Croker, the Tammany boss, was reproached by a friend for preventing Charles A. Towne's nomination. The owner of the tiger said he had nothing against Towne, but that 'the boys' thought they could "do up" both Bryan and Hill by nominating the latter for vice president. Then Mr. Croker added that New York was not to be blamed for Towne's defeat.

Said he: "Towne was never in it for a minute after it became known to the delegates that Bryan wanted him. That settled Mr. Towne's hash."

"Why was that, Mr. Croker?"

"Well," said the boss, "there is an old dago on the East Side that owns a lot of hand-organs and monkeys, and hires them out to little dagos, too poor to buy their own outfit. This big dago is mighty hard on them; he treats them rough, and if they fail to bring in what he thinks enough money in the evening, he kicks and cuffs them as if they were dogs. A man who witnessed this conduct asked a little dago why he submitted to such treatment. His answer was: 'He's the boss; he beat me; I have to do what he says; but when I get out in the alley, I kick de monkey.'

"That," said Mr. Croker, "is why Towne was not nominated."

If one will consider that Mr. Towne is the monkey, the Democratic convention the little Italian, and Mr. Bryan the "big dago," the application is plain.

When done, remove them from the oven. Line a two quart mold with butter paste. Have ready one pound of ham cut into dice and four hard boiled eggs cut into slices. Put a layer of pigeon, one of ham and one of egg and then another of pigeon and so on until all the material has been used up. Silver one tablespoonful of butter over the top, add a dash of pepper and quarter of a teaspoonful of salt, cover with a thick sheet of paste, make a hole in the center and bake in a quick oven 30 minutes. Make a rich white sauce and pour into the baked pie through the hole in the top crust.

# CENSUS WORK IS COMPLETED

Supervisor Hostetter Has Forwarded His Reports to the Department at Washington.

## HE WOULDN'T GIVE FIGURES

Says Cities and Towns In This County Didn't Come Up to Expectation.

## TWO TOWNS FELL SHORT

Lisbon, Aug. 28.—(Special.)—The work of making up the returns of the census enumerator has been completed in the office of Supervisor Hostetter and has been forwarded to Washington.

Mr. Hostetter has asked repeatedly for permission to make report to the newspapers in his district, but has been notified each time that reports will be made from the census office.

Mr. Hostetter did say, however, that every town and city in this county fell short of expectations, and the census of two towns in this county was short of that taken in 1890.

## THE CAKE WALK

It Originated Among the French Negroes of Louisiana Over a Century Ago.

The cake walk proper had its origin among the French negroes of Louisiana more than a century ago, says the New Orleans Times-Democrat.

There is little doubt that it is an offshoot of some of the old French country dances. It resembles several of them in form. From New Orleans it spread over the entire south and thence north.

It was found of convenience to the plantation negroes. They were not wedded by license, and it was seldom that the services of a preacher were called in.

At a cake walk a man might legitimately show his preference for a woman, and thus publicly claim her for a wife. In effect, the cake walk was not different from the old Scotch marriage, which required only public acknowledgement from the contracting parties. So this festival became in some sense a wooing, an acceptance or a rejection and a ceremony. This explains its popularity with the blacks outside of its beauties, with the accompaniment of music, which is competent at all times to command negro support.

Cake walking has improved, as do most things that are constantly practiced. It has lost its old significance in the south. Negroes now get married, when they marry at all, in the white folks' fashion.

It has become, however, a pantomime dance. Properly performed, it is a beautiful one. The cake is not much of a prize, though the negro has a sweet tooth.

# WAITING ON CHINESE.

Must Have Responsible Persons to Deal With.

## OUR INTERESTS TO BE PROTECTED

**German Troops, Says Mr. Conger, Are Beginning to Arrive in the Orient and the Kaiser's Government Will Soon Have Its Full Quota There.**

Washington, Aug. 28.—After several days' intermission in Chinese advices the government Monday received two dispatches, which presumably bring its advices up to the most recent date. There are indications that the principal delays in the lines of communication are encountered between Tien Tsin and Peking, a fact explainable by the newspaper advices that small bands of Boxers are operating on the lines of communication of the Peking campaign force. Just such interference with the work of the signal corps men was experienced by the United States forces in the Philippines, and by Lord Roberts' troops in the Transvaal campaign. Usually these interruptions are very short, the marauders being driven off and the lines restored within a day or two. The fact that more than a week was covered by the last interruption gives rise to the belief here that these attacks upon the lines of communication by Boxers are more formidable than was supposed to be possible, after the heavy losses inflicted upon them by the international force in its advance.

The important dispatch of the day was from Minister Conger relative to the military situation in Peking. Unfortunately it lacked a date, the minister presumably not having yet received the department's instructions to include the date in the body of his dispatches. Mr. Conger's reference to the arrival of 2,000 fresh German troops caused some surprise, no one apparently having closely watched the movements of the German contingent, which is now arriving with fairly regular frequency in China, and which consequently may be expected soon to equal in numerical strength the military contingents of any of the European nations there represented.

### Tsung Li Yamen Have Appeared.

A significant statement in Mr. Conger's dispatch is that respecting the expected appearance in Peking of the members of the Tsung Li Yamen. A natural construction to be given to this statement is that these ministers wish to undertake to represent the Chinese government formally in negotiations with the powers. It having been found impossible up to this moment, according to Mr. Conger's statement, to meet any representative of the Chinese government in Peking who was competent to open negotiations, it may be inferred that if these ministers actually appear with proper credentials, one of the problems connected with the present difficult situation in China will be solved.

With some responsible person or persons to deal with, it may be possible for the United States to come to some agreement as to a settlement of the Chinese trouble. Ever since the fall of Peking, the principal difficulty confronting the government here has been to arrange for the next movement in its program. It could not withdraw its troops, even if so disposed, without arranging for indemnification of the heavy cost it has been put to in the Peking campaign. Also it must make arrangements with some responsible authority for the future protection of American interests in China, as our business interests cannot be withdrawn along with the army of occupation.

Therefore, as conveying a faint hope that in the persons of these members of the Tsung Li Yamen there may be found some authorized representative of the Chinese government competent to make engagements on these points, the message of Mr. Conger was very welcome to the authorities here.

### Gunboat Castine Off for Amoy.

Another statement in Mr. Conger's dispatch relative to the decision of the generals not to enter the imperial palace appears to explain the movement of the American troops, which the press dispatches were unable to clear up, in relaxing the attack upon the palace gates, after capturing all but one of them.

Another event of the day of some interest was the order dispatching the Castine from Shanghai to Amoy, distant about 400 miles. The little gunboat should make the run in about two days, under favorable conditions. Her force is small, but sufficient to serve the moral purpose, if there be need of such. It appears that she is ordered to Amoy quite as much on ac-

count of representations from well-informed business circles as from any official advice. The consul at Amoy, agreeing with the representations of the business interests, it was decided to be proper to send a gunboat to Amoy, not because of any particular apprehension as to Japanese aspirations, but to prevent rioting at this dangerous point.

### FIERCE BATTLE IN PEKING.

**It Is Claimed the Allies Have Lost 1,800 Men and Are Being Bombardeed In a Murderous Manner.**

St. Petersburg, Aug. 28.—It is persistently rumored in St. Petersburg that the Russian government has received a dispatch asserting that, after a fierce battle inside Peking, the allies retreated, losing 1,800 men, mostly Russians. It is further said that the Chinese occupy fortified positions, from which they are bombarding the allies in a murderous manner.

### NO POLITICAL ASSESSMENTS

**Postmaster General Smith, Issues Instructions to His Subordinates as to Campaign Contributions.**

Washington, Aug. 28.—In accordance with the recent general request of the civil service commission, Postmaster General Smith issued the following order regarding political assessments:

"Order 1091—The attention of all postmasters, officers and employees of the postal service is invited to sections 57, 58, 59, 60, 431 and 450 of the postal laws and regulations, edition of 1895 relating to political assessments or contributions and to the conduct of the officers and employees of the postal service in connection with political affairs. A strict observance of these regulations is enjoined, and any disregard thereof will be promptly dealt with. Postmasters and other officers of the service will call the attention of their subordinates to this order."

### OPERATORS NOT THERE.

**Mine Workers' President Mitchell Still Believes There Will Be an Amicable Adjustment.**

Hazleton, Pa., Aug. 28.—Not an operator was present at this morning's convention of the United Mine Workers, so no joint conference will be held. Delegate Gallagher, of Plymouth, said that he knew no operators would confer with the miners, but predicted that the day might come when they would be only too glad to enter into a joint conference. He believed that if President Mitchell and the executive board ordered a strike every miner in the anthracite coal field, whether a member of the Mine Workers' Union or not, would go out.

President Mitchell said: "While the operators are not here and while the clouds look dark, I still have hope of an amicable settlement of existing conditions. I do not regard unnecessary strikes as the true type of unionism."

### MR. BRYAN ALSO ABSENT.

**Would Not Attend the G. A. R. Union at Chicago Because President McKinley Could Not Attend.**

Chicago, Aug. 28.—William J. Bryan has followed the example of President McKinley, and declined to be a visitor at the national encampment. He sent a message to Executive Director William H. Harper, the head of the local committee in charge of the local end of the encampment, saying that because of the absence of President McKinley from the encampment he considered it advisable to remain away.

Prominent men of all shades of political belief addressed the boys in blue. The next convention will likely go west either to Denver or Salt Lake.

### BOXERS TO BE DISARMED.

**Li Hung Chang Desires It So That Negotiations May Open.**

Shanghai, Aug. 26.—Local mandarins received a telegram today from Pao Ting Fu stating that the allied powers have taken the district west of Peking. Li Hung Chang sent a telegram to the empress today at Hsian Fu requesting her to arrest Prince Tuan and disarm the Boxer element of the army in order to give him an opening to negotiate with the powers.

### White Man Killed by a Negro.

St. Louis, Aug. 28.—Louis J. Roth, 24 years old, was shot and killed by a negro named Henry Fletcher. Fletcher shot Roth without provocation. The negro escaped. Considerable feeling is manifested against the negroes in the neighborhood where the shooting occurred.

# A SEVERE SCORING.

**Mrs. Chamberlain on British Surgeons.**

### LOOSE METHODS IN HOSPITALS.

**She Declares the Doctors, With Few Exceptions, to Be a Low Class of Men and Addicted to Drunkenness—Neglect Their Patients.**

London, Aug. 28.—Mrs. Richard Chamberlain, sister-in-law of the secretary of state for the colonies, who very recently returned from South Africa, has been interviewed regarding her experiences there. She declares that every word said by Mr. William Ashmead Bartlett Burdett-Coutts, conservative member of parliament for Westminster, about the management of the military hospital, was true. The surgeon general, she asserts, threw every obstacle in the way of forwarding medical supplies.

"With a few exceptions the army doctors," said Mrs. Chamberlain, "are a low class of men. Those in South Africa neglected their patients. Six cases of drunkenness among army doctors came under my observation. After these people had come into contact with the police they were sent home in charge of invalids."

These and other sweeping charges, made after a stay of several months in South Africa, are attracting no little attention.

### OFFICIAL CORRESPONDENCE.

**President McKinley Congratulates Minister Conger Upon His Happy Deliverance From Death.**

Washington, Aug. 28.—On Aug. 8, 1898, upon receipt of the dispatch from Minister Conger, stating among other things that all connected with the American legation were safe, but that efforts were being made to induce the legationaries to leave Peking, to do which he (Conger) regarded as certain death, the president sent Minister Conger the following dispatch:

"Aug. 8, night—I rejoice, and with me the whole American people, to receive your cipher telegram reporting your safety and that of the other legations. Everything is being done and will be done for your relief. The acting secretary of state has today sent you a telegram of inquiry and information. William McKinley."

Again, on Aug. 19, upon the receipt of official information of the relief of the legations, the president sent the following dispatch:

"Conger, American Minister, Peking: "Fowler, Che Foo, for Conger, American Minister:

"The whole American people rejoice over your deliverance, over the safety of your companions of our and of the other nations, who have shared your perils and privations, the fortitude and courage which you have all maintained, and the heroism of your little band of defenders. We all mourn for those who have fallen and acknowledge the goodness of God, which has preserved you and guided the brave army that set you free."

"William McKinley."

### TOWNE'S GREAT SPEECH.

**He Answers Governor Roosevelt Before an Immense Audience.**

Duluth, Minn., Aug. 28.—The largest gathering to listen to a political speech that ever assembled in Duluth gathered Monday night at the Armory, when Charles A. Towne opened the campaign in a lengthy address in which he replied to the recent speech of Governor Roosevelt, delivered at St. Paul, on the occasion of the national convention of the League of Republican Clubs. The audience listened attentively to the orator's remarks for more than two hours, and frequently throughout the discourse the applause was deafening.

The speech is considered by many to be Mr. Towne's greatest effort. At its conclusion, he was tendered an ovation by the multitude present.

He declared the issue of this campaign to be the life of the republic itself. He said the recent war for liberty had become a war of subjugation. He asserted that Dewey had made an ally of Aguinaldo and that we had given the Philippines the impression that they should receive their independence. Towne claims the natives were fit for self-government. He asserted that this nation had been the aggressor and that the Filipinos merely fought in self-defense.

### KENTUCKY LEGISLATURE.

**Wide Views as to Substitute For Present Election Law.**

Frankfort, Ky., Aug. 28.—The extra

Although many of the members have arrived there is a wide diversity of opinion as to what kind of a substitute for the present election law they will agree upon. Nearly all of those who have arrived have declared in favor of the removal of the party emblem from the ballot as a means of disfranchising voters who cannot read or write, and it seems probable that this will be incorporated in whatever bill may be passed.

# WAITING ON CHINESE.

## OUR INTERESTS TO BE PROTECTED

**German Troops, Says Mr. Conger, Are Beginning to Arrive in the Orient and the Kaiser's Government Will Soon Have Its Full Quota There.**

Washington, Aug. 28.—After several days' intermission in Chinese advices the government Monday received two dispatches, which presumably bring its advices up to the most recent date. There are indications that the principal delays in the lines of communication are encountered between Tien Tsin and Peking, a fact explainable by the newspaper advices that small bands of Boxers are operating on the lines of communication of the Peking campaign force. Just such interference with the work of the signal corps men was experienced by the United States forces in the Philippines, and by Lord Roberts' troops in the Transvaal campaign. Usually these interruptions are very short, the marauders being driven off and the lines restored within a day or two. The fact that more than a week was covered by the last interruption gives rise to the belief here that these attacks upon the lines of communication by Boxers are more formidable than was supposed to be possible, after the heavy losses inflicted upon them by the international force in its advance.

The important dispatch of the day was from Minister Conger relative to the military situation in Peking. Unfortunately it lacked a date, the minister presumably not having yet received the department's instructions to include the date in the body of his dispatches. Mr. Conger's reference to the arrival of 2,000 fresh German troops caused some surprise, no one apparently having closely watched the movements of the German contingent, which is now arriving with fairly regular frequency in China, and which consequently may be expected soon to equal in numerical strength the military contingents of any of the European nations there represented.

### Tsung Li Yamen Have Appeared.

A significant statement in Mr. Conger's dispatch is that respecting the expected appearance in Peking of the members of the Tsung Li Yamen. A natural construction to be given to this statement is that these ministers wish to undertake to represent the Chinese government formally in negotiations with the powers. It having been found impossible up to this moment, according to Mr. Conger's statement, to meet any representative of the Chinese government in Peking who was competent to open negotiations, it may be inferred that if these ministers actually appear with proper credentials, one of the problems connected with the present difficult situation in China will be solved. With some responsible person or persons to deal with, it may be possible for the United States to come to some agreement as to a settlement of the Chinese trouble. Ever since the fall of Peking, the principal difficulty confronting the government here has been to arrange for the next movement in its program. It could not withdraw its troops, even if so disposed, without arranging for indemnification of the heavy cost it has been put to in the Peking campaign. Also it must make arrangements with some responsible authority for the future protection of American interests in China, as our business interests cannot be withdrawn along with the army of occupation. Therefore, as conveying a faint hope that in the persons of these members of the Tsung Li Yamen there may be found some authorized representative of the Chinese government competent to make engagements on these points, the message of Mr. Conger was very welcome to the authorities here.

### Gunboat Castine Off for Amoy.

Another statement in Mr. Conger's dispatch relative to the decision of the generals not to enter the imperial palace appears to explain the movement of the American troops, which the press dispatches were unable to clear up, in relaxing the attack upon the palace gates, after capturing all but one of them.

Another event of the day of some interest was the order dispatching the Castine from Shanghai to Amoy, distant about 400 miles. The little gunboat should make the run in about two days, under favorable conditions. Her force is small, but sufficient to serve the moral purpose, if there be need of such. It appears that she is ordered to Amoy quite as much on ac-

count of representations from well-informed business circles as from any official advice. The consul at Amoy, agreeing with the representations of the business interests, it was decided to be proper to send a gunboat to Amoy, not because of any particular apprehension as to Japanese aspirations, but to prevent rioting at this dangerous point.

St. Petersburg, Aug. 28.—It is persistently rumored in St. Petersburg that the Russian government has received a dispatch asserting that, after a fierce battle inside Peking, the allies retreated, losing 1,800 men, mostly Russians. It is further said that the Chinese occupy fortified positions, from which they are bombarding the allies in a murderous manner.

### NO POLITICAL ASSESSMENTS

**Postmaster General Smith, Issues Instructions to His Subordinates as to Campaign Contributions.**

Washington, Aug. 28.—In accordance with the recent general request of the civil service commission, Postmaster General Smith issued the following order regarding political assessments:

"Order 1091—The attention of all postmasters, officers and employes of the postal service is invited to sections 57, 58, 59, 60, 431 and 450 of the postal laws and regulations, edition of 1895 relating to political assessments or contributions and to the conduct of the officers and employes of the postal service in connection with political affairs. A strict observance of these regulations is enjoined, and any disregard thereof will be promptly dealt with. Postmasters and other officers of the service will call the attention of their subordinates to this order."

### OPERATORS NOT THERE.

**Mine Workers' President Mitchell Still Believes There Will Be an Amicable Adjustment.**

Hazleton, Pa., Aug. 28.—Not an operator was present at this morning's convention of the United Mine Workers, so no joint conference will be held. Delegate Gallagher, of Plymouth, said that he knew no operators would confer with the miners, but predicted that the day might come when they would be only too glad to enter into a joint conference. He believed that if President Mitchell and the executive board ordered a strike every miner in the anthracite coal field, whether a member of the Mine Workers' Union or not, would go out.

President Mitchell said: "While the operators are not here and while the clouds look dark, I still have hope of an amicable settlement of existing conditions. I do not regard unnecessary strikes as the true type of unionism."

### MR. BRYAN ALSO ABSENT.

**Would Not Attend the G. A. R. Reunion at Chicago Because President McKinley Could Not Attend.**

Chicago, Aug. 28.—William J. Bryan has followed the example of President McKinley, and declined to be a visitor at the national encampment. He sent a message to Executive Director William H. Harper, the head of the local committee in charge of the local end of the encampment, saying that because of the absence of President McKinley from the encampment he considered it advisable to remain away.

Prominent men of all shades of political belief addressed the boys in blue. The next convention will likely go west either to Denver or Salt Lake.

### BOXERS TO BE DISARMED.

**Li Hung Chang Desires It So That Negotiations May Open.**

Shanghai, Aug. 26.—Local mandarins received a telegram today from Pao Ting Fu stating that the allied powers have taken the district west of Peking. Li Hung Chang sent a telegram to the empress today at Hsian Fu requesting her to arrest Prince Tuan and disarm the Boxer element of the army in order to give him an opening to negotiate with the powers.

### White Man Killed by a Negro.

St. Louis, Aug. 28.—Louis J. Roth, 24 years old, was shot and killed by a negro named Henry Fletcher. Fletcher shot Roth without provocation. The negro escaped. Considerable feeling is manifested against the negroes in the neighborhood where the shooting occurred.

# A SEVERE SCORING.

**Mrs. Chamberlain on British Surgeons.**

### LOOSE METHODS IN HOSPITALS.

**She Declares the Doctors, With Few Exceptions, to Be a Low Class of Men and Addicted to Drunkenness—Neglect Their Patients.**

London, Aug. 28.—Mrs. Richard Chamberlain, sister-in-law of the secretary of state for the colonies, who very recently returned from South Africa, has been interviewed regarding her experiences there. She declares that every word said by Mr. William Ashmead Bartlett Burdett-Coutts, conservative member of parliament for Westminster, about the management of the military hospital, was true. The surgeon general, she asserts, threw every obstacle in the way of forwarding medical supplies.

"With a few exceptions the army doctors," said Mrs. Chamberlain, "are a low class of men. Those in South Africa neglected their patients. Six cases of drunkenness among army doctors came under my observation. After these people had come into contact with the police they were sent home in charge of invalids."

These and other sweeping charges, made after a stay of several months in South Africa, are attracting no little attention.

### OFFICIAL CORRESPONDENCE.

**President McKinley Congratulates Minister Conger Upon His Happy Deliverance From Death.**

Washington, Aug. 28.—On Aug. 8, 1898, upon receipt of the dispatch from Minister Conger, stating among other things that all connected with the American legation were safe, but that efforts were being made to induce the legationaries to leave Peking, to do which he (Conger) regarded as certain death, the president sent Minister Conger the following dispatch:

"Aug. 8, night—I rejoice, and with me the whole American people, to receive your cipher telegram reporting your safety and that of the other legations. Everything is being done and will be done for your relief. The acting secretary of state has today sent you a telegram of inquiry and information." —William McKinley.

Again, on Aug. 19, upon the receipt of official information of the relief of the legationaries, the president sent the following dispatch:

"Conger, American Minister, Peking: "Fowler, Che Foo, for Conger, American Minister:

"The whole American people rejoice over your deliverance, over the safety of your companions of our and of the other nations, who have shared your perils and privations, the fortitude and courage which you have all maintained, and the heroism of your little band of defenders. We all mourn for those who have fallen and acknowledge the goodness of God which has preserved you and guided the brave army that set you free."

"William McKinley."

Washington, Aug. 28.—After several days' intermission in Chinese advices the government Monday received two dispatches, which presumably bring its advices up to the most recent date. There are indications that the principal delays in the lines of communication are encountered between Tien Tsin and Peking, a fact explainable by the newspaper advices that small bands of Boxers are operating on the lines of communication of the Peking campaign force. Just such interference with the work of the signal corps men was experienced by the United States forces in the Philippines, and by Lord Roberts' troops in the Transvaal campaign. A significant statement in Mr. Conger's dispatch is that respecting the expected appearance in Peking of the members of the Tsung Li Yamen. It having been found impossible up to this moment, according to Mr. Conger's statement, to meet any representative of the Chinese government in Peking who was competent to open negotiations, it may be inferred that if these ministers actually appear with proper credentials, one of the problems connected with the present difficult situation in China will be solved. **Postmaster General Smith, Issues Instructions to His Subordinates as to Campaign Contributions.**

Washington, Aug. 28.—In accordance with the recent general request of the civil service commission, Postmaster General Smith issued the following order regarding political assessments:

"Order 1091—The attention of all postmasters, officers and employees of the postal service is invited to sections 57, 58, 59, 60, 431 and 450 of the postal laws and regulations, edition of 1895 relating to political assessments or contributions and to the conduct of the officers and employees of the postal service in connection with political affairs. A strict observance of these regulations is enjoined, and any disregard thereof will be promptly dealt with. Postmasters and other officers of the service will call the attention of their subordinates to this order."

## OPERATORS NOT THERE.

**Mine Workers' President Mitchell Still Believes There Will Be an Amicable Adjustment.**

Hazleton, Pa., Aug. 28.—Not an operator was present at this morning's convention of the United Mine Workers, so no joint conference will be held. Delegate Gallagher, of Plymouth, said that he knew no operators would confer with the miners, but predicted that the day might come when they would be only too glad to enter into a joint conference. He believed that if President Mitchell and the executive board ordered a strike every miner in the anthracite coal field, whether a member of the Mine Workers' Union or not, would go out.

President Mitchell said: "While the operators are not here and while the clouds look dark, I still have hope of an amicable settlement of existing conditions. I do not regard unnecessary strikes as the true type of unionism."

## MR. BRYAN ALSO ABSENT.

**Would Not Attend the G. A. R. Reunion at Chicago Because President McKinley Could Not Attend.**

Chicago, Aug. 28.—William J. Bryan has followed the example of President McKinley, and declined to be a visitor at the national encampment. He sent a message to Executive Director William H. Harper, the head of the local committee in charge of the local end of the encampment, saying that because of the absence of President McKinley from the encampment he considered it advisable to remain away.

Prominent men of all shades of political belief addressed the boys in blue. The next convention will likely go west either to Denver or Salt Lake.

Li Hung Chang sent a telegram to the empress today at Hsian Fu requesting her to arrest Prince Tuan and disarm the Boxer element of the army in order to give him an opening to negotiate with the powers.

**She Declares the Doctors, With Few Exceptions, to Be a Low Class of Men and Addicted to Drunkenness—Neglect Their Patients.**

London, Aug. 28.—Mrs. Richard Chamberlain, sister-in-law of the secretary of state for the colonies, who very recently returned from South Africa, has been interviewed regarding her experiences there. She declares that every word said by Mr. William Ashmead Bartlett Burdett-Coutts, conservative member of parliament for Westminster, about the management of the military hospital, was true. The surgeon general, she asserts, threw every obstacle in the way of forwarding medical supplies.

"With a few exceptions the army doctors," said Mrs. Chamberlain, "are a low class of men. Those in South Africa neglected their patients. Six cases of drunkenness among army doctors came under my observation. After these people had come into contact with the police they were sent home in charge of invalids."

These and other sweeping charges, made after a stay of several months in South Africa, are attracting no little attention.

## OFFICIAL CORRESPONDENCE.

**President McKinley Congratulates Minister Conger Upon His Happy Deliverance From Death.**

Washington, Aug. 28.—On Aug. 8, 1898, upon receipt of the dispatch from Minister Conger, stating among other things that all connected with the American legation were safe, but that efforts were being made to induce the legationaries to leave Peking, to do which he (Conger) regarded as certain death, the president sent Minister Conger the following dispatch:

"Aug. 8, night—I rejoice, and with me the whole American people, to receive your cipher telegram reporting your safety and that of the other legations. Everything is being done and will be done for your relief. The acting secretary of state has today sent you a telegram of inquiry and information. William McKinley."

Again, on Aug. 19, upon the receipt of official information of the relief of the legations, the president sent the following dispatch:

"Conger, American Minister, Peking: "Fowler, Che Foo, for Conger, American Minister:

"The whole American people rejoice over your deliverance, over the safety of your companions of our and of the other nations, who have shared your perils and privations, the fortitude and courage which you have all maintained, and the heroism of your little band of defenders. We all mourn for those who have fallen and acknowledge the goodness of God which has preserved you and guided the brave army that set you free.

### TOWNE'S GREAT SPEECH.

**He Answers Governor Roosevelt Before an Immense Audience.**

Duluth, Minn., Aug. 28.—The largest gathering to listen to a political speech that ever assembled in Duluth gathered Monday night at the Armory, when Charles A. Towne opened the campaign in a lengthy address in which he replied to the recent speech of Governor Roosevelt, delivered at St. Paul, on the occasion of the national convention of the League of Republican Clubs. The audience listened attentively to the orator's remarks for more than two hours, and frequently throughout the discourse the applause was deafening.

The speech is considered by many to be Mr. Towne's greatest effort. At its conclusion, he was tendered an ovation by the multitude present.

He declared the issue of this campaign to be the life of the republic itself. He said the recent war for liberty had become a war of subjugation. He asserted that Dewey had made an ally of Aguinaldo and that we had given the Philippines the impression that they should receive their independence. Towne claims the natives were fit for self-government. He asserted that this nation had been the aggressor and that the Filipinos merely fought in self-defense.

## KENTUCKY LEGISLATURE.

**Wide Views as to Substitute For Present Election Law.**

Frankfort, Ky., Aug. 28.—The extra

session of the legislature will convene at noon today. Although many of the members have arrived there is a wide diversity of opinion as to what kind of a substitute for the present election law they will agree upon. Nearly all of those who have arrived have declared in favor of the removal of the party emblem from the ballot as a means of disfranchising voters who cannot read or write, and it seems probable that this will be incorporated in whatever bill may be passed.

Record of Two Great Parties on Legislation.

## DEMOCRATS SIMPLY TALKED

While the Republicans Enacted Anti-Trust Law.

## ONLY COURSE IS AN AMENDMENT

To the Constitution of the United States Which Will Give Power to Congress to Deal Fully With Them — The Present Limitation.

Both the great parties have expressed opposition to trusts in their platforms. The difference between their attitudes is this: The Democrats simply agitate, without offering any adequate remedy. The Republican party has already placed upon the United States statutes all the legislation which congress has power to enact under the limitations of the constitution.

The Democrats began their agitation back in the Fiftieth congress. The house committee on manufactures was authorized to enter upon an investigation. Its report was voluminous, covering a thousand printed pages. It was presented to the house on the day before final adjournment, but with no recommendation as to legislation. In the Fifty-second congress the house judiciary committee made an investigation and reported that, "None of the methods employed by the trusts in controlling the production or disposition of their products are in violation of United States laws." Its report also declared: "It is clearly settled that the production or manufacture of that which may become a subject of interstate commerce and ultimately pass into trade is not commerce, nor can manufacturers of any sort be instruments of commerce within the meaning of the constitution."

It will be noted that these declarations come from a committee with a majority of Democrats, and that they reported that under the constitutional provision which gives congress power only over interstate commerce, that body has not full power to legislate against trusts.

The only effective legislation enacted by congress is the Sherman anti-trust law of 1890, which was passed by a Republican majority and signed by Benjamin Harrison. The Democrats sneered at this bill, alleging that it was merely bungling, and would be a dead letter. But under this law the supreme court of the United States, on October 24, 1898, held the Joint Traction association to be illegal and compelled its dissolution. It was composed of some 31 different railroad companies, including all the leading ones of the United States.

Another important decision of this character was that which dissolved the Addyston Pipe & Steel company, a trust composed of six corporations manufacturing and selling iron pipe. These agreed there should be no competition among them, and the territory in which each was to operate was set forth in the agreement.

President Cleveland in his last message to congress admitted that there was a lack of constitutional power to enable congress to deal fully with the trusts, and gave it as his opinion that the state legislatures possessed all necessary power to crush these illegal combinations. But, as President McKinley said in his message last December, "The state authority to which President Cleveland looked for relief from the evil of trusts has failed to accomplish fully that object. This is probably due to the fact that the different states take different views as to the proper way to discriminate between evil and injurious combinations and those associations which are beneficial and necessary to the great business prosperity of the country."

It is clear to every thinking man that the real remedy is through a constitutional amendment. The grant of power to congress is not broad enough. What is needed is a constitutional amendment which will permit con-

gress to enact such laws to be enforced by federal courts in every part of the country, without interference with the rights of the state. The judiciary committee of the house on June 1 last brought in a joint resolution for a constitutional amendment of this character. It was supported by the Republicans, yet only five Democrats voted for it and it thus failed to secure the necessary two-thirds majority.

One would suppose from reading Democratic papers at the present time that the Republican party was the strong friend and champion of the trusts. The facts are exactly the opposite. The Democrats in congress have talked and blustered and denounced, but have never done anything. When a really effective measure came to a vote they opposed it. The Republicans enacted the only law ever passed on this subject and supported the only remedy which is available.

## OUR LABOR LAWS.

**REPUBLICAN CONGRESS ENACTED THEM FOR THE TOILERS.**

**Here Is the List—Read It Carefully, and Note the Fact That the Democratic Party Can Not Point to a Single Statute of Its Enactment.**

The great revolution, by which labor was exalted and the country freed from the curse of slavery, was accomplished by the Republican party against the fiercest opposition possible by the combined forces of the Democrats and their allies.

Chinese Coolies Barred.—This law passed February 19, 1862; amended February 9, 1869; and further amended March 3, 1875. President Grant, in his message of December 7, 1874, laid before congress a recommendation for the enforcement of the law. The legislation on these several acts was accomplished by the Republicans in 1862, in the Thirty-seventh congress, and in 1869, in the Fortieth congress.

Peonage Abolished.—This act was passed in the Thirty-ninth congress, when both houses were Republican by a large majority, March 2, 1867.

Inspection of Steam Vessels.—Passed during the Fortieth congress, when the Republicans were in power in both Houses.

Protection of Seamen.—Passed during the Forty-second congress, when both houses were under control of the Republicans. It was amended during the Forty-third congress, when the Republicans were in control of both houses.

Padrone System.—The involuntary servitude of foreigners was abrogated by a law passed during the Forty-third congress, when both houses were under the control of the Republicans.

Alien Contract Labor.—Contract-labor law passed the house March 9, 1886. All the votes against the bill were Democratic.

National Trades Unions.—Passed the senate June 9, 1886, without division. Passed the house June 11, 1886, without division.

Payment for Holidays.—This bill giving full pay for holidays to employees working by the day was passed without division in the Forty-ninth congress, second session.

United States Convicts.—This bill prohibiting the contract system of the labor of United States convicts passed the house March 9, 1886. Passed the senate February 28, 1887. All the votes against the bill were Democratic.

Boards of Arbitration.—Passed the house on April 3, 1886, with thirty votes against the bill, all being Democratic.

Hours of Labor.—Law limiting letter carriers to eight hours a day. Passed in the senate without division.

Department of Labor.—Passed the house April 19, 1888. Passed the senate May 23, 1888. All votes cast against the bill were Democratic.

Alien Contract Labor.—Passed the house during the Fifty-first congress without division August 30, 1890. Passed the senate with verbal amendments September 27, 1890.

## HON. JOHN HAY.

Earns the World's Respect by His Diplomacy.

## FRANK AND OPEN METHODS.

**Have Made the Term, "New Diplomacy" Honored in Europe — Some Facts in American History That Shows Secretary Hay's Superb Talents.**

Since the beginning of the Chinese troubles, the United States has led diplomatic and military action. In the former, Secretary of State Hay has added to his already great reputation as a diplomat of the first rank. His frank, open and businesslike methods of conducting international affairs was first referred to in Europe, in a half-snoring manner, as the "new diplomacy." The term is now one of honor.

Mr. Hay is no tyro in diplomacy. His talent was so well known that when the Venezuelan matter came up in Mr. Cleveland's administration, the latter gentleman took the unheard-of step of sending a man of the opposite political party to undertake a most delicate and highly responsible mission. That man was Mr. Hay. Secretary of State Olney was convinced

HON. JOHN HAY.

Venezuela had a "case." He determined that Great Britain should submit the boundary matter to arbitration. He convinced President Cleveland that he was right. Then came the latter's celebrated message to congress.

But there was a weak place in the diplomatic machine. Bayard of Delaware, a Democrat of the Democrats, was our minister to England. He was a great admirer of the English, and a prime favorite there because of his pedantic public speeches in which he praised England and her people without stint. He could not be persuaded that Mr. Cleveland was, in earnest. He assumed that the message was simply a political expedient—a "twisting of the lion's tail," to influence the elections. And he, unofficially, assured his English friends that this was the real state of the case. Naturally, they accepted his assurances.

To avoid scandal, but one thing could be done. That was, to send an unofficial representative—an ambassador, if you please—to London, to make the British premier understand the United States was in earnest. Such a thing had never before been done. And John Hay was the man chosen—not because he was a Republican, but because he was the fittest man in the United States for the delicate task.

There was no man equal to it to be found in the ranks of the Democratic party.

Mr. Hay discharged his onerous diplomatic task perfectly. England yielded. The Venezuela case was arbitrated.

He made Lord Salisbury understand the Cleveland administration was in dead earnest, not playing politics. Nothing in our history ever inspired such respect for the frank diplomacy and stern courage of the United States government.

When McKinley was elected, he fixed upon Hay as his secretary of state, because of his splendid abilities and his masterly diplomatic methods. But the Cuban trouble was on. War with Spain was possible—may, prob-

able. He consulted with Mr. Hay. The latter saw that, if we were to be successful in a war with Spain, she must be cut off from aid by other European countries. To prevent a Spanish alliance was the first task. England could prevent it. Hence Mr. Hay was made ambassador to London, instead of secretary of state.

Here was a diplomatic task as difficult as the former one. But Mr. Hay accomplished it. Russia proposed to England that, to prevent war, Spain should be induced to sell Cuba to Great Britain. It was expected that the United States would object to this violation of the Monroe Doctrine; but we would understand that we must reckon with Russia as well as England if we attempted to use force. The reply of Lord Salisbury was that the affair concerned the United States and Spain alone; that, in case of war, England would preserve a strict neutrality, and expect other nations to do the same. John Hay had accomplished his mission. Spain was isolated. The rest is history.

Why can not all Americans rise above partisanship and recognize the truth regarding John Hay—that he is one of the leading diplomats of his time, American to the core, and worthy of their unstinted admiration and regard? He made England arbitrate the Venezuelan boundary question; he prevented Spain's obtaining any European aid, and now he has a task as great, in preventing the dismemberment of China, in order that the open door may be preserved. That he will also succeed in this is the hope of every patriotic American.

## TO THE GERMAN.

**LEADING GERMAN PAPER OF ILLINOIS SPEAKS OUT.**

**Tells the German-American Voters to "Let Well Enough Alone"—A Strong Appeal to the Common Sense of These Citizens.**

The Illinois Staats Zeitung, the leading German daily paper of that state, published in Chicago, has the following strong and sensible editorial article addressed to its German-American readers:

It will be difficult for the Republicans to convince those Germans who are yet undecided as to which party they will support, that a change of administration would be not only a great wrong, but even a national calamity. A wrong, because the present Republican administration has placed our people to better circumstances than they enjoyed under the last Democratic regime, and a calamity because a change to the financial quack, Bryan, as president, would be followed by a financial and commercial crisis which each workingman and business man would feel in his purse.

"Let well enough alone." Had our people obeyed that injunction in 1892, the crisis of 1893 would not have come. It may be an excuse that many of the voters of that time had not yet experienced a crisis and therefore were easily decoyed by the Democrats who promised that with them in control there would come an era of general prosperity. Instead, there came a crash, a crash whose effects are still felt by many.

The Democrats, who in 1893 controlled both houses of congress and had their man in the White House, redeemed none of their promises; on the contrary, the fat years of the Republican administration of 1888-1892 were followed by the extremely lean years of 1893-1896.

On the other hand, all promises made by the Republicans in 1896 have been kept; all hopes based on the change of 1896 are fulfilled.

The Germans know these things and they will be the last to follow the Democratic decoy calls; they will give mature consideration to the matter from now until election day, and on that day they will say to themselves: "Let well enough alone."

It is noted that Mr. Bryan preserves a dead silence with regard to his mis-carried predictions of 1896; but he goes right along with a new set of prophecies, which will be found quite as false as the old.

## HON. JOHN HAY.

Earns the World's Respect by His Diplomacy.

## FRANK AND OPEN METHODS.

**Have Made the Term, "New Diplomacy" Honored in Europe — Some Facts in American History That Shows Secretary Hay's Superb Talents.**

Since the beginning of the Chinese troubles, the United States has led diplomatic and military action. In the former, Secretary of State Hay has added to his already great reputation as a diplomat of the first rank. His frank, open and businesslike methods of conducting international affairs was first referred to in Europe, in a half-sneering manner, as the "new diplomacy." The term is now one of honor.

Mr. Hay is no tyro in diplomacy. His talent was so well known that when the Venezuelan matter came up in Mr. Cleveland's administration, the latter gentleman took the unheard-of step of sending a man of the opposite political party to undertake a most delicate and highly responsible mission. That man was Mr. Hay. Secretary of State Olney was convinced

HON. JOHN HAY.

Venezuela had a "case." He determined that Great Britain should submit the boundary matter to arbitration. He convinced President Cleveland that he was right. Then came the latter's celebrated message to congress.

But there was a weak place in the diplomatic machine. Bayard of Delaware, a Democrat of the Democrats, was our minister to England. He was a great admirer of the English, and a prime favorite there because of his pedantic public speeches in which he praised England and her people without stint. He could not be persuaded that Mr. Cleveland was, in earnest. He assumed that the message was simply a political expedient—a "twisting of the lion's tail," to influence the elections. And he, unofficially, assured his English friends that this was the real state of the case. Naturally, they accepted his assurances.

To avoid scandal, but one thing could be done. That was, to send an unofficial representative—an ambassador, if you please—to London, to make the British premier understand the United States was in earnest. Such a thing had never before been done. And John Hay was the man chosen—not because he was a Republican, but because he was the fittest man in the United States for the delicate task. There was no man equal to it to be found in the ranks of the Democratic party.

Mr. Hay discharged his onerous diplomatic task perfectly. England yielded. The Venezuela case was arbitrated. He made Lord Salisbury understand the Cleveland administration was in dead earnest, not playing politics. Nothing in our history ever inspired such respect for the frank diplomacy and sterling courage of the United States government.

When McKinley was elected, he fixed upon Hay as his secretary of state, because of his splendid abilities and his masterly diplomatic methods. But the Cuban trouble was on. War with Spain was possible—nay, prob-

able. He consulted with Mr. Hay. The latter saw that, if we were to be successful in a war with Spain, she must be cut off from aid by other European countries. To prevent a Spanish alliance was the first task. England could prevent it. Hence Mr. Hay was made ambassador to London, instead of secretary of state.

Here was a diplomatic task as difficult as the former one. But Mr. Hay accomplished it. Russia proposed to England that, to prevent war, Spain should be induced to sell Cuba to Great Britain. It was expected that the United States would object to this violation of the Monroe Doctrine; but we would understand that we must reckon with Russia as well as England if we attempted to use force. The reply of Lord Salisbury was that the affair concerned the United States and Spain alone; that, in case of war, England would preserve a strict neutrality, and expect other nations to do the same. John Hay had accomplished his mission. Spain was isolated. The rest is history.

Why can not all Americans rise above partisanship and recognize the truth regarding John Hay—that he is one of the leading diplomats of his time, American to the core, and worthy of their unstinted admiration and regard? He made England arbitrate the Venezuelan boundary question; he prevented Spain's obtaining any European aid, and now he has a task as great, in preventing the dismemberment of China, in order that the open door may be preserved. That he will also succeed in this is the hope of every patriotic American.

## TO THE GERMAN.

**LEADING GERMAN PAPER OF ILLINOIS SPEAKS OUT.**

**Tells the German-American Voters to "Let Well Enough Alone"—A Strong Appeal to the Common Sense of These Citizens.**

The Illinois Staats Zeitung, the leading German daily paper of that state, published in Chicago, has the following strong and sensible editorial article addressed to its German-American readers:

It will be difficult for the Republicans to convince those Germans who are yet undecided as to which party they will support, that a change of administration would be not only a great wrong, but even a national calamity. A wrong, because the present Republican administration has placed our people to better circumstances than they enjoyed under the last Democratic regime, and a calamity because a change to the financial quack, Bryan, as president, would be followed by a financial and commercial crisis which each workingman and business man would feel in his purse.

"Let well enough alone." Had our people obeyed that injunction in 1892, the crisis of 1893 would not have come. It may be an excuse that many of the voters of that time had not yet experienced a crisis and therefore were easily decoyed by the Democrats who promised that with them in control there would come an era of general prosperity. Instead, there came a crash, a crash whose effects are still felt by many.

The Democrats, who in 1893 controlled both houses of congress and had their man in the White House, redeemed none of their promises; on the contrary, the fat years of the Republican administration of 1888-1892 were followed by the extremely lean years of 1893-1896.

On the other hand, all promises made by the Republicans in 1896 have been kept; all hopes based on the change of 1896 are fulfilled.

The Germans know these things and they will be the last to follow the Democratic decoy calls; they will give mature consideration to the matter from now until election day, and on that day they will say to themselves: "Let well enough alone."

It is noted that Mr. Bryan preserves a dead silence with regard to his mis-carried predictions of 1896; but he goes right along with a new set of prophecies, which will be found quite as false as the old.

# AS TO TRUSTS.

Record of Two Great Parties on Legislation.

## DEMOCRATS SIMPLY TALKED

While the Republicans Enacted Anti-Trust Law.

## ONLY COURSE IS AN AMENDMENT

To the Constitution of the United States Which Will Give Power to Congress to Deal Fully With Them — The Present Limitation.

Both the great parties have expressed opposition to trusts in their platforms. The difference between their attitudes is this: The Democrats simply agitate, without offering any adequate remedy. The Republican party has already placed upon the United States statutes all the legislation which congress has power to enact under the limitations of the constitution.

The Democrats began their agitation back in the Fiftieth congress. The house committee on manufactures was authorized to enter upon an investigation. Its report was voluminous, covering a thousand printed pages. It was presented to the house on the day before final adjournment, but with no recommendation as to legislation. In the Fifty-second congress the house judiciary committee made an investigation and reported that, "None of the methods employed by the trusts in controlling the production or disposition of their products are in violation of United States laws." Its report also declared: "It is clearly settled that the production or manufacture of that which may become a subject of interstate commerce and ultimately pass into trade is not commerce, nor can manufacturers of any sort be instruments of commerce within the meaning of the constitution."

It will be noted that these declarations come from a committee with a majority of Democrats, and that they reported that under the constitutional provision which gives congress power only over interstate commerce, that body has not full power to legislate against trusts.

The only effective legislation enacted by congress is the Sherman anti-trust law of 1890, which was passed by a Republican majority and signed by Benjamin Harrison. The Democrats sneered at this bill, alleging that it was merely bungling, and would be a dead letter. But under this law the supreme court of the United States, on October 24, 1898, held the Joint Traffic association to be illegal and compelled its dissolution. It was composed of some 31 different railroad companies, including all the leading ones of the United States.

Another important decision of this character was that which dissolved the Addyston Pipe & Steel company, a trust composed of six corporations manufacturing and selling iron pipe. These agreed there should be no competition among them, and the territory in which each was to operate was set forth in the agreement.

President Cleveland in his last message to congress admitted that there was a lack of constitutional power to enable congress to deal fully with the trusts, and gave it as his opinion that the state legislatures possessed all necessary power to crush these illegal combinations.

But, as President McKinley said in his message last December, "The state authority to which President Cleveland looked for relief from the evil of trusts has failed to accomplish fully that object. This is probably due to the fact that the different states take different views as to the proper way to discriminate between ill and injurious combinations and those associations which are beneficial to the great business prosperity of the country."

It is clear to every thinking man that the real remedy is through a constitutional amendment. The grant of power to congress is not broad enough. What is needed is a constitutional amendment which will permit con-

gress to enact such laws to be enforced by federal courts in every part of the country, without interference with the rights of the state. The judiciary committee of the house on June 1 last brought in a joint resolution for a constitutional amendment of this character. It was supported by the Republicans, yet only five Democrats voted for it and it thus failed to secure the necessary two-thirds majority.

One would suppose from reading Democratic papers at the present time that the Republican party was the strong friend and champion of the trusts. The facts are exactly the opposite. The Democrats in congress have talked and blustered and denounced, but have never done anything. When a really effective measure came to a vote they opposed it. The Republicans enacted the only law ever passed on this subject and supported the only remedy which is available.

Germans Ask the Foreign Office to Demand Damages for Being Thrust From Their Homes in the Transvaal and Brutally Treated by the English.

Paris, Aug. 28.—Official dispatches from Shanghai explain that the Hankow uprising was not due to the Boxers, but a plot organized by the partisans of Kang Yu Wei, the reformer, combined with the secret society known as the "Ko Lao Hui," an anti-foreign organization, who proposed to the southern viceroys a revolt against the Peking government. The leaders of the movement relied especially upon Chang Chi Tung, viceroy at Hankow, for arms, gunpowder and other agents of destruction.

A proclamation, written in English and addressed to Europeans, was seized. In it the revolutionists declared themselves opposed to the Manchu dynasty, but ready to uphold the present emperor. They expressed themselves as desirous of founding a "constitutional government," of protecting foreigners and Christians, and of supporting the powers against anti-foreign fanatics.

The immediate effect of the movement has been to increase the peril of Europeans. Proof exists of disorder and pillage due to the same movement at widely separated points. The headquarters of the conspiracy is Hankow, from which point it ramified into other provinces.

Several thousands of supporters of the movement have received instructions to demonstrate in the central valley of the Yang-Tse-Kiang, but the viceroy has a sufficient force of regular troops to guarantee the maintenance of order. Twelve of the conspirators have been beheaded.

## BOERS REPORTED BEATEN.

General Olivier, One of the Best Dutch Commanders, Said to Have Been Taken Prisoner.

London, Aug. 28.—Lord Roberts reports as follows: "The Boers have been beaten back by Bruce-Hamilton at Winburg. General Olivier has been captured."

The text of Lord Roberts' dispatch from Belfast, under Monday's date, announcing the capture of General Olivier, shows that three of Olivier's sons also were captured in the attack which the Boers made from three sides on Winburg. Lord Roberts adds that General Olivier was the "moving spirit among the Boers in the southeastern portion of the Orange colony during the war."

General Olivier became famous for his masterly retreat from the Orange river district along the Basutoland border. Harassed as he was by 30 miles of wagon train, he made the long march, escaping through the trap set across his path by General French with a force of 16,000 cavalry, and finally formed a junction with the Boer army of the Transvaal.

## ILLTREATED BY ENGLISH.

Hundreds of German Subjects Ejected From the Transvaal.

Berlin, Aug. 28.—A deputation of 400 German subjects residing in the Transvaal has arrived here to lodge a complaint with the German foreign office regarding alleged cruel treatment at Johannesburg. They assert that 400 German subjects of both sexes were arrested there and sent to a seaport, from which point they were shipped to Flushing, where the British landed them penniless. They were arrested, according to the statement of the deputation, in shops and taverns and even in their beds, and were hurried away barefooted and only half-clad, losing everything they had.

They are now urging the foreign office to demand damages for the brutal treatment and loss of property.

## MOB VIOLENCE WILL CAUSE FIVE DEATHS

## A DAY IN WALL STREET

Weakness In Sugar Accounted For by the Approaching Quarterly Dividend—Market Generally Dull.

New York, Aug. 28.—There was some disposition to sell stocks Monday, and the market showed a settling tendency throughout. Sugar absorbed close to one-fourth of the day's total dealings, and its marked weakness doubtless had some sympathetic effect on the rest of the list. Sentiment was affected also by the apparent abandonment of any pool operations for a rise. Unless the weakness of Sugar might be called such, there was no urgency in the liquidation, but there was an absence of buying demand. The weakness of Sugar fund no explanation in any news announcement of the day. The approach of a quarterly dividend period gives opportunity for the usual manipulation of the stock, and the board room traders jubilantly trail on any movement in the speculation which promises an appreciable movement of prices. The stock got down to within  $\frac{1}{4}$  of 118 and closed only a fraction above that up owing to the demand from the room shorts.

Pressure against People's Gas and Brooklyn Transit seemed to be coupled with the movement against Sugar in the early dealings, and later American Tobacco was forced down, but these stocks, except the last, showed a tendency to recover. Brooklyn Transit rising above Saturday's level. Losses extended to a point or over here and there in other stocks, and New Jersey Central fell 2 $\frac{1}{4}$ . London discounts hardened, and while money conditions in Berlin are for the moment easier, expert authorities affirm that very heavy obligations will have to be met in that market during the coming month and later. Available funds in New York continue apparently abundant, but the season for the interior movement of currency is fast approaching.

The oil market was dull and reactionary. Total sales, par value, \$770,000. U. S. new 4s advanced  $\frac{1}{2}$  per cent in the bid price.

## THE RAILROAD BRIDGES.

Secretary Root Has Approved the Engineers' Suggestion.

Washington, Aug. 28.—Secretary Root approved the recommendation of the engineers relative to the repairing of the Pennsylvania railroad bridge across the Allegheny river at Pittsburg.

The bridge will be repaired as proposed by the railroad company, and the company will not be required to elevate it 50 feet, as demanded by certain interests on the river. It is provided, however, that in case the other bridges across the river at this point are elevated the Pennsylvania company also will be compelled to elevate its bridges.

London, Aug. 28.—"The present epidemic of cholera," said the Simla correspondent of The Daily Mail, "is one of the worst outbreaks on record. The bubonic plague is child's play compared with it.

"The natives are dying like flies at the rate of 3,000 a week. The epidemic is undoubtedly due to the pollution of the scanty water supply during the famine."

## Anarchist Bressi Attempted Suicide.

## THE HANKOW UPRISING

**General Olivier Reported as Captured.**

### MUST HAVE PASSPORTS TO TRAVEL

**Germans Ask the Foreign Office to Demand Damages for Being Thrust From Their Homes in the Transvaal and Brutally Treated by the English.**

Paris, Aug. 28.—Official dispatches from Shanghai explain that the Hankow uprising was not due to the Boxers, but a plot organized by the partisans of Kang Yu Wei, the reformer, combined with the secret society known as the "Ko Lao Hui," an anti-foreign organization, who proposed to the southern viceroys a revolt against the Peking government. The leaders of the movement relied especially upon Chang Chi Tung, viceroy at Hankow, for arms, gunpowder and other agents of destruction.

A proclamation, written in English and addressed to Europeans, was seized. In it the revolutionists declared themselves opposed to the Manchu dynasty, but ready to uphold the present emperor. They expressed themselves as desirous of founding a "constitutional government," of protecting foreigners and Christians, and of supporting the powers against anti-foreign fanatics.

**Two Already Dead and Four Others Not Expected to Live—Lynch Law Invoked—Prisoner In Jail.**

Gilman, Ill., Aug. 28.—Two men killed, three wounded, two of them perhaps fatally, one woman fatally wounded and her residence burned.

are the results of an all-night battle between a mob and Mrs. Dr. C. W. Wright, who was accused of the murder of Jessie Salter, the 16-year-old daughter of a citizen of Gilman.

The dead are John Myers, laborer, employed by Mrs. Dr. Wright; Michael Ryan, citizen, employed as deputy constable. The fatally wounded are Lawrence Ryan, brother of the dead man, wounded in the abdomen; George Willoughby, citizen, shot through the left lung; Mrs. Dr. C. W. Wright, shot through the right shoulder, bullet taking downward course. The seriously wounded is Peter Laufer, members of the citizens' attacking party, shot through the stomach.

Jessie Salter died at the lying-in hospital of Mrs. Dr. Wright, and her body was hastily buried in a blanket. The coroner ordered Mrs. Wright's arrest, and the officers met with resistance. Straw saturated with petroleum was applied to the house, and finally compelled the woman and Meyers to evacuate. Mrs. Wright was taken to the city hall for treatment, but the mob made such threatening demonstrations that she was removed to another town. She is now confined in Matzka jail, but it is thought she cannot recover.

### FITZSIMMONS IS DISGUSTED

**The Brawny Pugilist Retires From the Ring, Leaving Jeffries Un-disputed Champion.**

New York, Aug. 28.—Robert Fitzsimmons announced his retirement from the pugilistic ring. He made an ineffectual attempt to get on a match for the heavyweight championship with James J. Jeffries, to take place before the Horton law expires at midnight next Friday, and issued the following statement:

"I am through with fighting. I will retire from the ring and will not claim the championship from Jeffries. I am ready and on the edge to meet him next Friday night, as his manager suggested ten days ago, but as he claims he is in no condition to fight on that night I am through with him and the ring. Henceforth there will be one man less in the heavyweight division, for I will go out with the Horton law."

### West Got Decision.

New York, Aug. 28.—Tommy West, of Brooklyn, got the decision over Joe Wolcott in their prizefight. The latter refused to go on in the twelfth round, claiming his arm was hurt. The management refused to allow Wolcott his share of the gate money.

Taggart, of Northumberland, for register and recorder, and Benjamin Machamer, of Treverton, for jury commissioner.

Coolbaugh for the congressional endorsement of the county by a majority of 79. Representative Rodgers L. Burnett is nominated for the assembly over M. Luther Michaels.

### Wyoming County Republicans.

Tunkhannock, Pa., Aug. 28.—The Wyoming county Republicans placed the following ticket in the field: Legislator, H. Dallas Tiffany, of Nicholson; associate judge, H. Webster Bardwell, of Tunkhannock; coroner, L. E. Meade, Tunkhannock; jury commissioner, Andrew Stevens, of Windham.

### The Cure of Manmindedness.

A disciple turned manward in his mind instead of Godward is a stumbling block in the way of Christ—a hindrance to His purpose. The cure of manmindedness is Christheartedness. The mind's look will follow the heart's love. We are drawn onward and upward to have the mind of Christ.—American Friend.

### Born of Agitation.

Ideas are born of agitation. They fall through the air like fruit shaken from a tree. Contentment is the surest symptom of death. Satisfaction is often another name for indifference. It is a grave to all future possibility.

Berlin, Aug. 28.—A deputation of 400 German subjects residing in the Transvaal has arrived here to lodge a complaint with the German foreign office regarding alleged cruel treatment at Johannesburg. They assert that 400 German subjects of both sexes were arrested there and sent to a seaport, from which point they were shipped to Flushing, where the British landed them penniless. They were arrested, according to the statement of the deputation, in shops and taverns and even in their beds, and were hurried away barefooted and only half-clad, losing everything they had.

They are now urging the foreign office to demand damages for the brutal treatment and loss of property.

## MOB VIOLENCE WILL CAUSE FIVE DEATHS

Two Already Dead and Four Others Not Expected to Live—Lynch Law Invoked—Prisoner In Jail.

Gilman, Ill., Aug. 28.—Two men killed, three wounded, two of them perhaps fatally, one woman fatally wounded and her residence burned.

are the results of an all-night battle between a mob and Mrs. Dr. C. W. Wright, who was accused of the murder of Dessie Salter, the 16-year-old daughter of a citizen of Gilman.

The dead are John Myers, laborer, employed by Mrs. Dr. Wright; Michael Ryan, citizen, employed as deputy constable. The fatally wounded are Lawrence Ryan, brother of the dead man, wounded in the abdomen; George Willoughby, citizen, shot through the left lung; Mrs. Dr. C. W. Wright, shot through the right shoulder, bullet taking downward course. The seriously wounded is Peter Lauer, members of the citizens' attacking party, shot through the stomach.

Dessie Salter died at the lying-in hospital of Mrs. Dr. Wright, and her body was hastily buried in a blanket. The coroner ordered Mrs. Wright's arrest, and the officers met with resistance. Straw saturated with petroleum was applied to the house, and finally compelled the woman and Meyers to evacuate. Mrs. Wright was taken to the city hall for treatment, but the mob made such threatening demonstrations that she was removed to another town. She is now confined in Matzka jail, but it is thought she cannot recover.

## FITZSIMMONS IS DISGUSTED

The Brawny Pugilist Retires From the Ring, Leaving Jeffries Undisputed Champion.

New York, Aug. 28.—Robert Fitzsimmons announced his retirement from the pugilistic ring. He made an ineffectual attempt to get on a match for the heavyweight championship with James J. Jeffries, to take place before the Horton law expires at mid-next Friday, and issued the following statement:

"I am through with fighting. I will retire from the ring and will not claim the championship from Jeffries. I am ready and on the edge to meet him next Friday night, as his manager suggested ten days ago, but as he claims he is in no condition to fight on that night I am through with him and the ring. Henceforth there will be one man less in the heavyweight division, for I will go out with the Horton law."

## West Got Decision.

New York, Aug. 28.—Tommy West, of Brooklyn, got the decision over Joe Wolcott in their prizefight. The latter refused to go on in the twelfth round, claiming his arm was hurt. The management refused to allow Wolcott his share of the gate money.

## Kennedy Wins From Collier.

Wheeling, W. Va., Aug. 28.—It required just 2 minutes and 15 seconds of the first round of what was to have been a 20-round fight for Eddie Kennedy, of Pittsburgh, to knock out Frank Collier, of Brooklyn.

## Northumberland Republicans.

Sunbury, Pa., Aug. 28.—The Northumberland county Republican convention named the following ticket:

Clarence F. Hutch, of Shamokin, received the endorsement for congress and Benjamin K. Focht, of Union county, was endorsed for state senator. F. A. Godcharles, of Milton, and L. S. Walters, of Mt. Carmel, were nominated for assembly; H. M. Taggart, of Northumberland, for register and recorder, and Benjamin Machamer, of Treverton, for jury commissioner.

## Monroe County Democrats.

Stroudsburg, Pa., Aug. 28.—The Democratic primary vote of Monroe county was counted Monday afternoon, and showed that ex-State Senator Joseph H. Shull defeated ex-Representative M. C. Coolbaugh for the congressional endorsement of the county by a majority of 79. Representative Rodgers L. Burnett is nominated for the assembly over M. Luther Michaels.

## Wyoming County Republicans.

Tunkhannock, Pa., Aug. 28.—The Wyoming county Republicans placed the following ticket in the field: Legislature, H. Dallas Tiffany, of Nicholson; associate judge, H. Webster Bardwell, of Tunkhannock; coroner, L. E. Meade, Tunkhannock; jury commissioner, Andrew Stevens, of Windham.

## The Cure of Manmindedness.

A disciple turned manward in his mind instead of Godward is a stumbling block in the way of Christ—a hindrance to His purpose. The cure of manmindedness is Christheartedness. The mind's look will follow the heart's love. We are drawn onward and upward to have the mind of Christ.—American Friend.

## Born of Agitation.

Ideas are born of agitation. They fall through the air like fruit shaken from a tree. Contentment is the surest symptom of death. Satisfaction is often another name for indifference. It is a grave to all future possibility.

# A DAY IN WALL STREET

Weakness In Sugar Accounted For by the Approaching Quarterly Dividend—Market Generally Dull.

New York, Aug. 28.—There was some disposition to sell stocks Monday, and the market showed a settling tendency throughout. Sugar absorbed close to one-fourth of the day's total dealings, and its marked weakness doubtless had some sympathetic effect on the rest of the list. Sentiment was affected also by the apparent abandonment of any pool operations for a rise. Unless the weakness of Sugar might be called such, there was no urgency in the liquidation, but there was an absence of buying demand. The weakness of Sugar had no explanation in any news announcement of the day. The approach of a quarterly dividend period gives opportunity for the usual manipulation of the stock, and the boardroom traders jubilantly trail on any movement in the speculation which promises an appreciable movement of prices. The stock got down to within 1/4 of 118 and closed only a fraction above that on owing to the demand from the room shorts.

Pressure against People's Gas and Brooklyn Transit seemed to be coupled with the movement against Sugar in the early dealings, and later American Tobacco was forced down, but these stocks, except the last, showed a tendency to recover, Brooklyn Transit rising above Saturday's level. Losses extended to a point or over here and there in other stocks, and New Jersey Central fell 2 1/4. London discounts hardened, and while money conditions in Berlin are for the moment easier, expert authorities affirm that very heavy obligations will have to be met in that market during the coming month and later. Available funds in New York continue apparently abundant, but the season for the interior movement of currency is fast approaching.

The oil market was dull and reactionary. Total sales, par value, \$770,000. U. S. new 4s advanced 1/4 per cent in the bid price.

## THE RAILROAD BRIDGES.

Secretary Root Has Approved the Engineers' Suggestion.

Washington, Aug. 28.—Secretary Root approved the recommendation of the engineers relative to the repairing of the Pennsylvania railroad bridge across the Allegheny river at Pittsburg.

The bridge will be repaired as proposed by the railroad company, and the company will not be required to elevate it 50 feet, as demanded by certain interests on the river. It is provided, however, that in case the other bridges across the river at this point are elevated the Pennsylvania company also will be compelled to elevate its bridges.

## CHOLERA AT SIMLA.

People Dyin; at the Rate of 3,000 a Week.

London, Aug. 28.—"The present epidemic of cholera," said the Simla correspondent of The Daily Mail, "is one of the worst outbreaks on record. The bubonic plague is child's play compared with it.

"The natives are dying like flies at the rate of 3,000 a week. The epidemic is undoubtedly due to the pollution of the scanty water supply during the famine."

## Anarchist Bressi Attempted Suicide.

London, Aug. 28.—Bressi, the assassin of King Humbert, ineffectually attempted to commit suicide Sunday. He now refuses food, saying that he has no intention to give the bourgeoisie the satisfaction of seeing him condemned. He shows signs of aberration of intellect.

# THE EVENING NEWS REVIEW.

16TH YEAR. NO. 68.

EAST LIVERPOOL, O., TUESDAY, AUGUST 28, 1900.

TWO CENT S

## BARN STRUCK BY LIGHTNING

A Disastrous Fire Occurred In Madison Township During the Storm Last Evening.

## JOHN PATERSON LOST ALL

The Grain In His Barn and the Building Was Burned to the Ground.

## THE LOSS WILL BE HEAVY

A barn belonging to John Patterson, of Madison township, was struck by lightning last evening between 6 and 7 o'clock and was burned to the ground.

The loss will be heavy, as Mr. Patterson had just finished threshing and had 100 bushels of wheat stored in the barn at the time of the fire.

Besides this the barn contained 14 tons of hay, all the harness owned by Mr. Patterson, farming implements and a quantity of other articles which go to make up a well stocked farm.

There was just one fortunate feature about the affair, and that was the fact that last evening was the first time in three years that the barn did not contain live stock of some sort. Had it not been for this lucky occurrence the loss would have been greater by several hundred dollars.

No insurance was carried on the contents of the building, but the barn itself was insured for a small amount, not sufficient, however, to cover the loss.

When the word reached this city, where Mr. Patterson is well known, the expressions of sympathy for his loss were general. He is one of the most prominent farmers in the township, having taken the decennial appraisal there this year.

## ALL DAY.

Business Houses Will Probably Decide to Close Their Places of Business Monday.

A movement was started this morning which will doubtless result in all the business houses in the city closing the entire day next Monday.

The first move was made by the clothiers, who signed a paper signifying their willingness to close on that day. The paper was then taken by the shoe people, who are meeting with good success in their line.

Many of the merchants of the city have decided to participate in the parade with a display, and in order that this part of the celebration may be made a complete success there is a disposition on their part to remain closed the entire day.

At the meeting of Trades Council tomorrow night steps will be taken to give the business men whatever assistance they may require in arranging their displays.

## REV. BALL

Will Probably Get a Call to the Pastorate of the First Presbyterian Church.

Tomorrow evening the congregation of the First Presbyterian church will meet for the purpose of calling a pastor.

The indications are that the choice will lie between Rev. Ball, of Utica, N. Y.; Rev. Jordan, of Ironton, O., or Rev. Roemer, of Cleveland.

As the matter stands now a majority of the congregation seem to be in favor of Rev. Ball.

## TO COOL KILNS.

THOMPSON POTTERY ADOPT A NOVEL SCHEME.

Ten Electric Fans Have Been Purchased And Will be Placed at the Mouth of the Kiln.

A novel device has been put in use at the Thompson pottery, and should it prove successful after trial today, it will doubtless be adopted for general use.

The firm has purchased 10 electric fans, and yesterday they were placed at the openings of No. 9, from which the fire had just been turned, and it is thought a great saving of time waiting for kilns to cool sufficiently to work in, will be the result.

Practical men, however, claim that unless the air is very carefully regulated when first turned into the kiln, the ware will crack.

It is thought the kiln will be sufficiently cool to examine the result of the experiment some time today.

## SETTLED THE CASE.

Uingleton Confessed Judgment in the Sum of \$55 in Squire McCarron's Court.

Last Tuesday J. W. Bennett sued J. M. Uingleton, who conducts a second-hand furniture business on Market street, for \$55, claimed due for labor.

The suit was entered in the court of Justice McCarron, and money in the hands of George Todd, of East End, and a horse, harness and wagon were attached.

On Thursday Uingleton confessed judgment for the full amount, and this morning the matter was disposed of by Uingleton paying the bill, together with the costs, which amounted in all to about \$68.

## FILED AN ACTION.

Heirs of the Late Jacob Stouffer, of Fairfield Township, Want His Property Partitioned.

Lisbon, Aug. 28.—(Special.)—The heirs of the late Jacob Stouffer, of Fairfield township, filed action this morning to partition the land in the estate, which consists of eight acres in Fairfield township, aggregating 158 acres.

Eli Stouffer, who is entitled to a one-seventh interest, filed the suit against Henry N. Stouffer and others.

## WILL SELL THE HORSES.

No Person Has Claimed the Animals Captured at Gardendale Two Weeks Ago.

The horses which were found near Gardendale several weeks ago and which have been in charge of the authorities since that time, will be sold at auction tomorrow.

They have been kept at the barn of Frank Dickey.

## COUNCIL.

A Lengthy Session is Expected if a Report in Regard to Sewers is Presented.

City council will meet this evening. There is not a great deal of business to transact, but if that report in regard to the sewers in district No. 2 is presented it is expected the session will last half the night.

## NO WILL

Was Found in the Estate of the Late Samuel J. Byatt, of Liverpool Township.

Lisbon, Aug. 28.—(Special.)—No will was found in the estate of Samuel L. Byatt, late of Liverpool township, and Judge Boone today appointed

ed Hannah Byatt administrator, with \$500 bond.

Joseph Cartwright, Bert Ansley and R. L. Edmonston were chosen to make the appraisement.

## A DIRTY STREET.

Residents of West Market Street Think That Thoroughfare Should be Cleaned.

Residents of West Market street are complaining of the condition of that thoroughfare from the Diamond to the Horn switch.

The section gang of the street railway company in removing the bricks from the space occupied by the track piled them up on the side of the street and apparently no attention was paid to the order or arrangement of the piles, as they are scattered about all over the pavement.

Wagons have been left standing in the street where the teamsters unhitched, and several inches of mud covers the street all the way out, so that it would be impossible to tell whether it was a paved street.

The whole street has the appearance of a suburban or village road instead of one of the principal up town thoroughfares of a thoroughly modern city.

## IT EXPLODED.

Mrs. Rigby Threw Some Powder in the Fire and She Got Burned.

Mrs. Horace Rigby, of California Hollow, met with a painful accident yesterday.

Mrs. Rigby threw a piece of paper containing powder in the fire and it exploded in her face, severely burning her left eye.

Dr. Brindley was called and the lady made as comfortable as possible. It is not thought the sight is injured.

When seen this morning President Hughes stated there was no change in the pottery situation in Trenton.

## JAMES RILEY WAS A SOLDIER

He Got Drunk and Insisted on Telling About the Time He Served

## WITH GENERAL PHIL. SHERIDAN

His Tale of Woe Didn't Interest the Spectators and He Became Very Angry.

## OFFICER WOOD ARRESTED HIM

Jackson square was last night the scene of a most disgraceful affair, which was witnessed by the whole community.

Some time during the afternoon yesterday James Riley, who conducts a cobbling shop on the Calcutta road, having a little more liquor aboard than he could comfortably handle, in some manner gained access to the hay mow at the livery barn of H. S. Rinehart.

No one about the place was aware of his presence until about 7:30 in the evening when he made his appearance in the lower part of the barn.

Stable Boss Tim Moffat was talking to some men when Riley came up. He said he had fought during the rebellion with Phil Sheridan and several other prominent generals and when it came to fighting he could give any one about the place pointers on the manly art of self defense.

Moffat, without paying much attention to the man, remarked that he remembered of hearing Sheridan and the other generals talk about Riley.

This was enough to get Mr. Riley going, and when his Irish was up he proved to be a terror. He swore and fumed, and the longer he talked the madder he became until several hundred people had assembled, thinking it was our time for a little riot.

For about half an hour Riley held full sway, accusing everybody of insulting him, especially the colored people about the barn, of which there are several. His profanity was something awful to listen to and finally when he was tired he started home.

Officer Wood got hold of him on the way and brought him back to the barn, where he was held until the patrol arrived. He was taken to jail still cursing in a frightful manner. A charge of using profane and indecent language was placed against him. Jerome McCormick was drunk on Lower Broadway last night and Officer Gill run him in. A charge was made against him of drunk and disorderly, and he will get a hearing today.

Charley Hamilton appeared at the mayor's office yesterday and pleaded guilty to disorderly conduct. He is the man who took it into his head to assist the allies in exterminating the Chinese Saturday night. Mayor Davidson fined him \$6 60, which he paid. When given a hearing today McCormick was fined \$6 60 and Riley got a like dose.

## Seriously Ill.

Word was received in the city this morning of the serious illness of the little child of Mr. and Mrs. Daniel McKeever at their home in East Palestine. Mr. and Mrs. McKeever formerly resided in this city and are well known here.

# THE BENEFIT WAS A SUCCESS

In the Neighborhood of One Hundred and Thirty-five Dollars to Be Given Howard.

## ECLIPSE DEFEATED SHAMROCKS

In One of the Snappiest and Best Played Ball Games of the Season.

## MAHONY FAILED TO SHOW UP

The benefit given at Rock Springs yesterday afternoon for Doc Howard was an immense success and netted the old-time ball player the sum of \$135, which will be used in sending him to a hospital, where he will take treatment for rheumatism.

The base ball situation in the city is now in a more complicated shape than ever and it will take another series to decide the championship of the city.

The game yesterday between the Shamrocks and Eclipse clubs was a beauty, the Eclipse boys winning by a score of 6 to 5. Barker, who was pitching for the Shamrocks, had his hand split by a hot liner from the bat of Ashbaugh, and Chambers had to pitch the game out.

Mahony, of Youngstown, who was to run Charles Walsh, failed to put in an appearance, and Cooley took his place, defeating Walsh by a few feet.

The race between Colley and Still. The race between Cooley and Still. John Coleman won the boys' race.

### Market for Ohio Products.

Ohio manufactures and farm products are finding a ready market in Cuba, Porto Rico and the Philippines. The exports to those islands in the fiscal year 1900 were \$47,000,000 in value against \$17,000,000 in 1898, and included large quantities of the class of goods made in Ohio factories and grown on Ohio farms.

Among these were \$10,000,000 worth of manufactures of iron and steel; \$6,000,000 worth of provisions; nearly \$6,000,000 worth of breadstuffs, and \$3,000,000 worth of cattle.

When you can count farm and factory exports to the islands in amounts of from three to ten million dollars in each class, it is a poor time for the "Little America" candidate to ask for votes among farmers and working men.

### At Massillon Hospital.

Massillon Independent.

During the week ending today five patients were received at the hospital. Three of these were women, two from Columbiana county and one from Stark county, and two men from Harrison and Wayne counties.

The health of the patients and attaches has never been better. Contrary to expectations, the fevers which are common where there is an abundance of freshly turned soil, have made no appearance on the hill. Hay fever, another common ailment of the season, does not claim a victim at the hospital.

### Rev. Reager is ill.

No services were held at the First M. E. church last evening on account of the illness of Rev. J. S. Reager, the pastor. Presiding Elder Holmes conducted the morning services.—Steubenville Herald.

Rev. Reager was formerly pastor of the M. E. church, Wellsville, and has many friends here who will be sorry to learn of his illness.

### Population of Alliance.

The Review announces in a semi-

official way that the population of Alliance, under the new census, is 8,975. These figures show an 18 per cent gain over the population of a decade ago.

## ULSTER COUNTY GAZETTE.

The Circulation of That Celebrated Sheet Must Have Been More Than 10,000 Copies.

Newspaperdom.

Contrary to general belief, which credit its small circulations to the newspapers published early in the century, is the almost continuous proof of the widespread circulation of the dear old Ulster County Gazette, published in Kingston, N. Y. Daily and almost hourly "discoveries" of copies of this paper containing accounts of the death and burial of the Father of his country, are chronicled in the American press.

In the face of strong circumstantial evidence thus produced, the circulation of the Gazette for the two issues named must be placed at more than 10,000 copies, with some thousands, no doubt, yet to be "discovered."

Laborious, indeed, and long continued, must have been the mechanical production of such editions with the primitive methods available at the time. Working day and night, and using one hand press, at least five days would be required for the printing of each of the issues.

Wonderful industry; excelled only his country, are chronicled in the of this old and well-advertised journal.

## OFFICER MILLER.

Instructed the Armour Company to Stop Driving Their Horse.

Yesterday Humane Officer Miller decided that the horse used by the Armour company was in need of a rest. He notified the company that they must stop driving the animal or they would get into trouble.

The horse was sent to the country. The humane officer is determined that all horses in the city that should not be driven shall be taken out of the wagons and given a rest.

## PAPER ON STREETS.

The Ordinance on the Subject Should be Enforced and Streets Kept Clean.

The practice of throwing paper on the streets does not abate in the least, and yesterday morning at the corner of Sixth street and Broadway it looked as though a county fair might have taken place the day previous.

The ordinance on the subject should either be enforced or be declared a dead letter.

### He Cut It Down.

Over in Salem the telephone people set a pole on the property of Attorney B. S. Ambler, in violation, it is claimed, of a written agreement. Mr. Ambler notified the company that the pole must be removed within 24 hours. This was not heeded and Mr. Ambler laid the axe to the root of the pole and cut it down. The telephone company put the pole up again, but not on Ambler's property.

### Resigned His Charge.

Cleveland Leader.

Rev. Herbert L. Gaylord, curate of Trinity Protestant Episcopal cathedral parish for three years, has resigned to accept a charge at Steubenville, O. He has accepted the rectorship of St. Stephen's church in that city and will take charge September 1. Rev. Arthur Dumper, a former Gambier student, will take Rev. Mr. Gaylord's place.

### Water Works System.

Geneva on Saturday voted for a \$60,000 water works system. J. B. Strawn, of Salem, submitted the plans that were adopted.

## ASK YOUR NEIGHBOR.

Hundreds of East Liverpool Citizens Can Tell You All About It.

Home endorsement, the public expression of East Liverpool people should be evidence beyond dispute for every East Liverpool reader. Surely the experience of friends and neighbors, cheerfully given by them, will carry more weight than the utterances of strangers residing in far-off places. Read the following:

Mr. Samuel Mayer, who is an employee of the McNicol pottery, whose place of residence is 183 Bank street, says: "My health was fairly good until my kidneys began to trouble me, causing my back to ache a good part of the time and to get sore and lame across the loins. The pain was often sharp and penetrating, especially when stooping or lifting, and I never got rid of the trouble until I procured Doan's Kidney Pills at the W. & W. pharmacy and tried them. When I had taken one box the soreness and pains in the back and other symptoms of kidney distress passed away."

Sold for 50 cents per box by all dealers, Foster-Milburn Co., Buffalo, No., sole agents for the U. S.

Remember the name—Doan's—and take no other.

### America's Objective in China.

Looking candidly into the future, the United States will therefore endeavor, whether in co-operation with Great Britain and other nations or not, to preserve the integrity of the Chinese empire, and prepare the way for a legitimate, untrammeled, material exploitation of China's vast resources. The United States has everything to lose and nothing to gain by the division of China. With China's area intact, America will find markets and opportunities there unrivaled by any yet undeveloped in other parts of the world. Even the most optimistic prophecies of the future of South America and Africa do not rival those that can be reasonably and logically made of China and neighboring portions of Asia.—Hon. John Barrett, in the Engineering Magazine for September.

### Adjourned Meeting.

Trades and Labor Council will hold an adjourned meeting on Wednesday evening, August 29, 1900, at 8 o'clock, for the purpose of perfecting arrangements for Labor Day. A full attendance is desired.

By order of  
TRADES AND LABOR COUNCIL.

### Murder and Suicide.

New York, Aug. 28.—H. H. Stridiron, a lumber merchant of Baltimore, was shot in the back of the head and through the eye at the Hotel Vendome by H. J. Ford, who registered from Boston. Ford then committed suicide by blowing out his brains. From circumstances attending the crime it appears to have been premeditated, but no cause is known.

### Amalgamated Association's Demands.

### Hoboes Nominated Dewey.

At last Admiral Dewey has received a presidential nomination. He and Philippine Joe (alias Yellowstone, alias Red, alias Irish Mack), whose real name is Michael Brazill, of Faribault, Minn., were nominated for president and vice president of the United States last Wednesday at the fourth annual convention of hoboes.

There was no opposition to Dewey, and his name went through with a whoop. The tramps were opposed to McKinley on the ground that he wanted to give work to everybody. They were opposed to Bryan, saying free silver was not enough, they wanted free beer and free railroad rides.

"Tomato Can" Smith, of Michigan, made a hit when he declared they were in favor of Dewey because the admiral had not had a home for 40 years, and then just as soon as he got one he gave it away.

### Hemphill's Side of It.

Twenty-five of the business men and citizens of Irondale went before Mayor Dennis, of Wellsville, and made affidavits which Dr. Hemphill will use in his defense before the state medical board of registration at Columbus on October 2.

It has been charged that Dr. Hemphill drinks to excess, and an effort is to be made to deprive him of his certificate. All the affidavits are of the same general tenor. They stated it to be the belief of the affiants that the charges against Dr. Hemphill were without foundation. One man stated in his affidavit that in his opinion the charges against Dr. Hemphill were inspired by jealousy and for the purpose of freezing him out.

—Mr. and Mrs. E. H. Jarvis have returned from a week's visit with Mr. Jarvis' parents at Tiltonville.

## What Makes Beauty?

Beauty is made or marred by the blood. When the blood is impure, the cheeks grow sallow, the eyes dull, the hair loses its luster. When the blood flows through the veins in a pure, rich current, the eyes sparkle, the skin is clear, the complexion beautiful. Women who use Dr. Pierce's Golden Medical Discovery, find that it is a genuine beautifier. By purifying and enriching the blood it puts a bloom on the cheek and a brightness in the eye, which tell the story of perfect health.

"Having been left weak from fever last October, I was under the doctor's care here," writes Mrs. Alice E. Casebier, of Crawford, Dawes Co., Neb. "I took medicine, but did not seem to gain very much. I was tired all the time, had no appetite, had wandering pains all over me more or less, and was very nervous, as I had been sick all the summer. I was all run-down and didn't know what ailed me. I got advice from Dr. Pierce, telling me my symptoms better than I could describe them myself, and also telling me that I would have to take care of myself, and how to take the medicines. I took four bottles of 'Golden Medical Discovery,' and five of 'Favorite Prescription,' and gained strength right along. I took one bottle of the 'Pleasant Pellets,' also. I know that these medicines will do all that they are recommended to do."

Use Dr. Pierce's Pleasant Pellets for sluggish liver.

# "DEAR BOY" LETTERS.

My Dear Boy—In your last letter you say that old man Skinner, your employer, says that he "doesn't see what a farmer can be thinking of to vote for McKinley when the trusts are squeezing the life out of the farmers and the country is drifting right into imperialism every day."

You want to know how to answer him. Well, I will tell you what to say to him and then I have a few words to say to you.

Ask Mr. Skinner if he remembers that in 1896 he sold that sorrel mare that used to work on the nigh side with old Jim for \$45. Ask him whether the sorrel wasn't a better horse than that bay he sold to Crawford the other day for \$80. Remind him that he sold his wool in 1896 for 14 cents, and that he sold this year at 27 cents, and kicked like a steer because he didn't get 30.

Gently suggest that he sold a couple of steers in 1896 for \$3.25 per hundred, and that they were as good as those splendid fellows that he sold last week for \$5.10.

The old man runs a huckster wagon into Nelsonville and sells produce to the miners' wives. Ask him if he remembers four years ago a woman would come out to the wagon and say:

"Can you let me have a peck of potatoes and trust me till John gets work?"

Remind him that the same woman comes out now and says: "Give me three dozen of eggs and two pounds of butter. What are those peaches worth? I'll take a basketful of them. Give me a peck of those tomatoes. How much does it all come to? Here's your money. When are you going to bring in some veal? John likes veal for breakfast."

Ask him if he doesn't know that more money has been paid out as wa-

ges to working men during the past year than in any other year in the history of the Hocking Valley. Ask him whether a considerable part of this money hasn't found its way into his capacious pocketbook.

Remind him that he told me that whenever the Mayhew farm is put up for sale he intends to bid on that upper eighty that joins his, and that he has made enough money in the last two years to pay for it.

And then gently suggest that he doesn't appear to be suffering much from imperialism or trusts either. Tell him that perhaps he had better let well enough alone. Tell him that when trade is good and business confidence strong and healthful, it is not wise to tear the whole thing down by giving the administration in untried hands.

I think that this is the only kind of argument that will touch old man Skinner, but you, my boy, have a larger soul. I want to say some other things to you.

My boy, thank God that you live in a country prosperous at home and honored abroad, and never so prosperous and honored as now.

When you come to vote this fall, remember that the national credit has reached its highest point; that the work of American laborers has gained its highest reward, and that the glory of American arms on land and sea has been most widely maintained under the wise, thoughtful, patriotic administration of William McKinley.

Remember that this administration is carrying out the principles and policy of the Republican party.

Remember that the blood of four generations of American soldiers runs in your veins, and then vote so that you will not be ashamed of your vote on the day after election.

YOUR FATHER.

## CROSSLEY BACK.

After Placing Machinery in a Big East Liverpool Pottery.

True American.

Joseph Crossley, of the Crossley Manufacturing company, of this city, has just returned from East Liverpool, where for several weeks he has been engaged in placing machinery in the Taylor, Lee & Smith pottery.

Mr. Crossley is at the head of the firm manufacturing the machinery placed in the pottery and he personally superintended the work of putting it in position.

All the machinery placed in the plan was manufactured by the Trenton concern. The two clay presses, which are 75-chamber capacity each, are the patent of the Crossley company. The leaves are square instead of round, as is the usual shape for those made in the west.

Mr. Crossley remained in East Liverpool until everything was in working order. Clay has already been made on the presses. The gentleman stated that his company now has an order for the largest clay presses ever constructed. The order includes ten 100-chamber presses. They are for the American Kaolin company, of Leesburg, Fla.

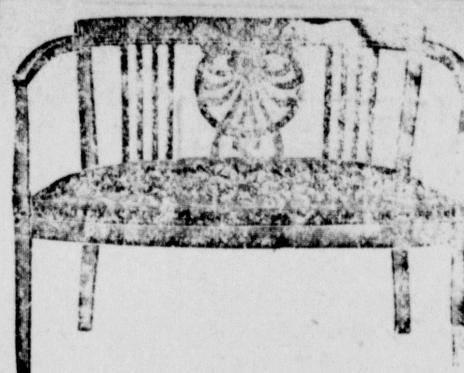

This company will use the presses in washing their clay before shipping it to the different potteries.

**DENS FOR BOTH SEXES.**

limits a grand citizenship—a citizenship which, when fully aroused on any vital point or feature, will make disturbers and malcontents stand from under. Would to God that we possessed the power to awaken this good citizenship fully to the enormity of the premeditated crime of the liquor traffic of this immediate section. The drinking habit is becoming a fearful evil in this city. Dens are so constructed that male and female tipplers can have full swing in their use of intoxicants, and drinking among women is fearfully on the increase. The sending of little children, mere boys and girls, to saloons for pitchers and pails of beer, is also an accursed thing, and is sowing seed which will result in an awful harvest of woe, sin and crime. One well known business man of this city branded the writer as a fanatic on the liquor question, asserting that East Liverpool is a clean city in this particular in comparison with other cities of like size and population throughout the country; and then this business man was called down, good and hot, by a well known sport of this vicinity, a man who takes in the country at large, with plenty of money back of him when he desires to see the sights; and this same sport asserts that a fraction of the evils of the saloons and dens of death in this city has never appeared on the surface or been made known to the public at large, citing one den on Sixth street as viler than the worst dives that ever existed at Five Points, New York city, in her very worst period of crime and iniquity.

**RATE OF WAGES.**

Paid Servants and Domestics in the Various Countries of the World.

London Mail.

On all sides complaints loud and deep are heard as to the scarcity of servants, and various remedies, more or less practical, have been suggested for the alleviation of the housewife's troubles.

The importation of Chinese servants has been suggested, but this seems a very improbable solution of the difficulty. Of course, the trouble really arises from the spread of education during the last few years, and the preference of young women to enter a more independent sphere of action in shops and houses of business than to confine themselves to the cut-and-dried rules of domestic service.

How to obtain good "generals" is undoubtedly a problem which will grow more difficult to solve than it is at present.

In England it may be taken that the average wages of a general servant are about £15 a year, some times more, some times less, but this seems a fair price to pay.

In France a "bonne-a-tout faire" expects £12 a year, and a German "maga" a like sum.

In Russia, Sweden, Denmark and Norway the average may be put down at £10 a year, and a like amount is a fair estimate in Italy.

In Switzerland, owing perhaps, to the enormous floating hotel population, the price rises to £16, but then Switzerland is naught else but one gigantic hotel for the convenience of travelers. Crossing the Atlantic, we find that in the United States of America a good general servant expects £30 a year, and in Canada about £2 less.

In both instances these sums may be offered freely without obtaining any response, because the same circumstances exist in those countries as in Great Britain—that is to say, the desire for greater independence and a growing dislike to domestic service.

The highest point is reached in the Cape Colony, where a white woman, unless very well paid, considers it beneath her dignity to accept any inferior post.

In Natal the average wage is only slightly lower, £42 a year being a fair figure. Here again the Zulus in domestic service outnumber the white servants by 50 to 1.

In our Australian colonies the demand for good servants is great, increasing and forever unfulfilled.

In New South Wales, for instance, the average wages are £38, in Victoria £32, which is the standard rate in Queensland and New Zealand; in western Australia it rises to £36, and in South Australia, by a curious coincidence, it falls to £25.

# CENSUS WORK IS COMPLETED

Supervisor Hostetter Has Forwarded His Reports to the Department at Washington.

## HE WOULDN'T GIVE FIGURES

Says Cities and Towns In This County Didn't Come Up to Expectation.

## TWO TOWNS FELL SHORT

Lisbon, Aug. 28.—(Special)—The work of making up the returns of the census enumerator has been completed in the office of Supervisor Hostetter and has been forwarded to Washington.

Mr. Hostetter has asked repeatedly for permission to make report to the newspapers in his district, but has been notified each time that reports will be made from the census office.

Mr. Hostetter did say, however, that every town and city in this county fell short of expectations, and the census of two towns in this county was short of that taken in 1890.

## THE CAKE WALK

It Originated Among the French Negroes of Louisiana Over a Century Ago.

The cake walk proper had its origin among the French negroes of Louisiana more than a century ago, says the New Orleans Times-Democrat.

There is little doubt that it is an offshoot of some of the old French country dances. It resembles several of them in form. From New Orleans it spread over the entire south and thence north.

It was found of convenience to the plantation negroes. They were not wedded by license, and it was seldom that the services of a preacher were called in.

At a cake walk a man might legitimately show his preference for a woman, and thus publicly claim her for a wife. In effect, the cake walk was not different from the old Scotch marriage, which required only public acknowledgement from the contracting parties. So this festival became in some sense a wooing, an acceptance or a rejection and a ceremony. This explains its popularity with the blacks outside of its beauties, with the accompaniment of music, which is competent at all times to command negro support.

Cake walking has improved, as do most things that are constantly practiced. It has lost its old significance in the south. Negroes now get married, when they marry at all, in the white folks' fashion.

It has become, however, a pantomime dance. Properly performed, it is a beautiful one. The cake is not much of a prize, though the negro has a sweet tooth.

## Why Maryland is Republican.

The bank clearings for Baltimore, the only city in Maryland reported for the month of June, 1899, were \$93,611,930. For the month of June, 1900, they were \$94,797,028. For the first six months of 1894 they were \$331,418,271 and for the first six months of 1900 they were \$562,456,356, an increase of over \$231,000,000. No wonder Maryland is a Republican state.

## CROKER'S STORY.

### HE TOLD WHY TOWNE DID NOT GET SECOND PLACE.

The Reason For This He Illustrated In Lincoln's Way, by Telling a Pertinent Anecdote of a New York Italian Organ Grinder.

Immediately after the Kansas City convention, Richard Croker, the Tammany boss, was reproached by a friend for preventing Charles A. Towne's nomination. The owner of the tiger said he had nothing against Towne, but that 'the boys' thought they could "do up" both Bryan and Hill by nominating the latter for vice president. Then Mr. Croker added that New York was not to be blamed for Towne's defeat.

Said he: "Towne was never in it for a minute after it became known to the delegates that Bryan wanted him. That settled Mr. Towne's hash."

"Why was that, Mr. Croker?"

"Well," said the boss, "there is an old dago on the East Side that owns a lot of hand-organs and monkeys, and hires them out to little dagos, too poor to buy their own outfit. This big dago is mighty hard on them; he treats them rough, and if they fail to bring in what he thinks enough money in the evening, he kicks and cuffs them as if they were dogs. A man who witnessed this conduct asked a little dago why he submitted to such treatment. His answer was: 'He's the boss; he beat me; I have to do what he says; but when I get out in the alley, I kick de monkey.'

"That," said Mr. Croker, "is why Towne was not nominated."

If one will consider that Mr. Towne is the monkey, the Democratic convention the little Italian, and Mr. Bryan the "big dago," the application is plain.

PIGEON POT PIE.—Having picked and dressed four wild pigeons, cut them in halves, place in a baking pan and bake in a hot oven 45 minutes, basting frequently with butter, salt and pepper. When done, remove them from the oven. Line a two quart mold with butter paste. Have ready one pound of ham cut into dice and four hard boiled eggs cut into slices. Put a layer of pigeon, one of ham and one of egg and then another of pigeon and so on until all the material has been used up. Cover one tablespoonful of butter over the top, add a dash of pepper and quarter of a teaspoonful of salt, cover with a thick sheet of paste, make a hole in the center and bake in a quick oven 30 minutes. Make a rich white sauce and pour into the baked pie through the hole in the top crust.

The Chinese muddle has brought a shower of mud from Democratic organs directed against Secretary Hay. They seem to forget that John Hay was the close friend and private secretary of Abraham Lincoln when they were denouncing the latter as a butcher, a baboon and a tyrant.

# WAITING ON CHINESE.

Must Have Responsible Persons to Deal With.

## OUR INTERESTS TO BE PROTECTED

German Troops, Says Mr. Conger, Are Beginning to Arrive in the Orient and the Kaiser's Government Will Soon Have Its Full Quota There.

Washington, Aug. 28.—After several days' intermission in Chinese advices the government Monday received two dispatches, which presumably bring its advices up to the most recent date. There are indications that the principal delays in the lines of communication are encountered between Tien Tsin and Peking, a fact explainable by the newspaper advices that small bands of Boxers are operating on the lines of communication of the Peking campaign force. Just such interference with the work of the signal corps men was experienced by the United States forces in the Philippines, and by Lord Roberts' troops in the Transvaal campaign. Usually these interruptions are very short, the marauders being driven off and the lines restored within a day or two. The fact that more than a week was covered by the last interruption gives rise to the belief here that these attacks upon the lines of communication by Boxers are more formidable than was supposed to be possible, after the heavy losses inflicted upon them by the international force in its advance.

The important dispatch of the day was from Minister Conger relative to the military situation in Peking. Unfortunately it lacked a date, the minister presumably not having yet received the department's instructions to include the date in the body of his dispatches. Mr. Conger's reference to the arrival of 2,000 fresh German troops caused some surprise, no one apparently having closely watched the movements of the German contingent, which is now arriving with fairly regular frequency in China, and which consequently may be expected soon to equal in numerical strength the military contingents of any of the European nations there represented.

### Tsung Li Yamen Have Appeared.

A significant statement in Mr. Conger's dispatch is that respecting the expected appearance in Peking of the members of the Tsung Li Yamen. A natural construction to be given to this statement is that these ministers wish to undertake to represent the Chinese government formally in negotiations with the powers. It having been found impossible up to this moment, according to Mr. Conger's statement, to meet any representative of the Chinese government in Peking who was competent to open negotiations, it may be inferred that if these ministers actually appear with proper credentials, one of the problems connected with the present difficult situation in China will be solved. With some responsible person or persons to deal with, it may be possible for the United States to come to some agreement as to a settlement of the Chinese trouble. Ever since the fall of Peking, the principal difficulty confronting the government here has been to arrange for the next movement in its program. It could not withdraw its troops, even if so disposed, without arranging for indemnification of the heavy cost it has been put to in the Peking campaign. Also it must make arrangements with some responsible authority for the future protection of American interests in China, as our business interests cannot be withdrawn along with the army of occupation. Therefore, as conveying a faint hope that in the persons of these members of the Tsung Li Yamen there may be found some authorized representative of the Chinese government competent to make engagements on these points, the message of Mr. Conger was very welcome to the authorities here.

### Gunboat Castine Off for Amoy.

Another statement in Mr. Conger's dispatch relative to the decision of the generals not to enter the imperial palace appears to explain the movement of the American troops, which the press dispatches were unable to clear up, in relaxing the attack upon the palace gates, after capturing all but one of them.

Another event of the day of some interest was the order dispatching the Castine from Shanghai to Amoy, distant about 400 miles. The little gunboat should make the run in about two days, under favorable conditions. Her force is small, but sufficient to serve the moral purpose, if there be need of such. It appears that she is ordered to Amoy quite as much on ac-

count of representations from well-informed business circles as from any official advice. The consul at Amoy, agreeing with the representations of the business interests, it was decided to be proper to send a gunboat to Amoy, not because of any particular apprehension as to Japanese aspirations, but to prevent rioting at this dangerous point.

### FIERCE BATTLE IN PEKING.

It Is Claimed the Allies Have Lost 1,800 Men and Are Being Bombed in a Murderous Manner.

St. Petersburg, Aug. 28.—It is persistently rumored in St. Petersburg that the Russian government has received a dispatch asserting that, after a fierce battle inside Peking, the allies retreated, losing 1,800 men, mostly Russians. It is further said that the Chinese occupy fortified positions, from which they are bombarding the allies in a murderous manner.

### NO POLITICAL ASSESSMENTS

Postmaster General Smith, Issues Instructions to His Subordinates as to Campaign Contributions.

Washington, Aug. 28.—In accordance with the recent general request of the civil service commission, Postmaster General Smith issued the following order regarding political assessments:

"Order 1091—The attention of all postmasters, officers and employes of the postal service is invited to sections 57, 58, 59, 60, 431 and 450 of the postal laws and regulations, edition of 1895 relating to political assessments or contributions and to the conduct of the officers and employes of the postal service in connection with political affairs. A strict observance of these regulations is enjoined, and any disregard thereof will be promptly dealt with. Postmasters and other officers of the service will call the attention of their subordinates to this order."

### OPERATORS NOT THERE.

Mine Workers' President Mitchell Still Believes There Will Be an Amicable Adjustment.

Hazelton, Pa., Aug. 28.—Not an operator was present at this morning's convention of the United Mine Workers, so no joint conference will be held. Delegate Gallagher, of Plymouth, said that he knew no operators would confer with the miners, but predicted that the day might come when they would be only too glad to enter into a joint conference. He believed that if President Mitchell and the executive board ordered a strike every miner in the anthracite coal field, whether a member of the Mine Workers' Union or not, would go out.

President Mitchell said: "While the operators are not here and while the clouds look dark, I still have hope of an amicable settlement of existing conditions. I do not regard unnecessary strikes as the true type of unionism."

### MR. BRYAN ALSO ABSENT.

Would Not Attend the G. A. R. Reunion at Chicago Because President McKinley Could Not Attend.

Chicago, Aug. 28.—William J. Bryan has followed the example of President McKinley, and declined to be a visitor at the national encampment. He sent a message to Executive Director William H. Harper, the head of the local committee in charge of the local end of the encampment, saying that because of the absence of President McKinley from the encampment he considered it advisable to remain away.

Prominent men of all shades of political belief addressed the boys in blue. The next convention will likely go west either to Denver or Salt Lake.

### BOXERS TO BE DISARMED.

Li Hung Chang Desires It So That Negotiations May Open.

Shanghai, Aug. 26.—Local mandarins received a telegram today from Pao Ting Fu stating that the allied powers have taken the district west of Peking. Li Hung Chang sent a telegram to the empress today at Hsian Fu requesting her to arrest Prince Tuan and disarm the Boxer element of the army in order to give him an opening to negotiate with the powers.

### White Man Killed by a Negro.

St. Louis, Aug. 28.—Louis J. Roth, 24 years old, was shot and killed by a negro named Henry Fletcher. Fletcher shot Roth without provocation. The negro escaped. Considerable feeling is manifested against the negroes in the neighborhood where the shooting occurred.

# A SEVERE SCORING.

Mrs. Chamberlain on British Surgeons.

### LOOSE METHODS IN HOSPITALS.

She Declares the Doctors, With Few Exceptions, to Be a Low Class of Men and Addicted to Drunkenness—Neglect Their Patients.

London, Aug. 28.—Mrs. Richard Chamberlain, sister-in-law of the secretary of state for the colonies, who very recently returned from South Africa, has been interview regarding her experiences there. She declares that every word said by Mr. William Ashmead Bartlett Burdett-Coutts, conservative member of parliament for Westminster, about the management of the military hospital, was true. The surgeon general, she asserts, threw every obstacle in the way of forwarding medical supplies.

"With a few exceptions the army doctors," said Mrs. Chamberlain, "are a low class of men. Those in South Africa neglected their patients. Six cases of drunkenness among army doctors came under my observation. After these people had come into contact with the police they were sent home in charge of invalids."

These and other sweeping charges, made after a stay of several months in South Africa, are attracting no little attention.

### OFFICIAL CORRESPONDENCE.

President McKinley Congratulates Minister Conger Upon His Happy Deliverance From Death.

Washington, Aug. 28.—On Aug. 8, 1898, upon receipt of the dispatch from Minister Conger, stating among other things that all connected with the American legation were safe, but that efforts were being made to induce the legationaries to leave Peking, to do which he (Conger) regarded as certain death, the president sent Minister Conger the following dispatch:

"Aug. 8, night—I rejoice, and with me the whole American people, to receive your cipher telegram reporting your safety and that of the other legations. Everything is being done and will be done for your relief. The acting secretary of state has today sent you a telegram of inquiry and information. William McKinley."

Again, on Aug. 19, upon the receipt of official information of the relief of the legations, the president sent the following dispatch:

"Conger, American Minister, Peking: "Fowler, Che Foo, for Conger, American Minister:

"The whole American people rejoice over your deliverance, over the safety of your companions of our and of the other nations, who have shared your perils and privations, the fortitude and courage which you have all maintained, and the heroism of your little band of defenders. We all mourn for those who have fallen and acknowledge the goodness of God which has preserved you and guided the brave army that set you free.

"William McKinley."

### TOWNE'S GREAT SPEECH.

He Answers Governor Roosevelt Before an Immense Audience.

Duluth, Minn., Aug. 28.—The largest gathering to listen to a political speech that ever assembled in Duluth gathered Monday night at the Armory, when Charles A. Towne opened the campaign in a lengthy address in which he replied to the recent speech of Governor Roosevelt, delivered at St. Paul, on the occasion of the national convention of the League of Republican Clubs. The audience listened attentively to the orator's remarks for more than two hours, and frequently throughout the discourse the applause was deafening.

The speech is considered by many to be Mr. Towne's greatest effort. At its conclusion, he was tendered an ovation by the multitude present.

He declared the issue of this campaign to be the life of the republic itself. He said the recent war for liberty had become a war of subjugation. He asserted that Dewey had made an ally of Aguinaldo and that we had given the Philippines the impression that they should receive their independence. Towne claims the natives were fit for self-government. He asserted that this nation had been the aggressor and that the Filipinos merely fought in self-defense.

### KENTUCKY LEGISLATURE.

Wide Views as to Substitute For Present Election Law.

Frankfort, Ky., Aug. 28.—The extra

session of the legislature will convene at noon today. Although many of the members have arrived there is a wide diversity of opinion as to what kind of a substitute for the present election law they will agree upon. Nearly all of those who have arrived have declared in favor of the removal of the party emblem from the ballot as a means of disfranchising voters who cannot read or write, and it seems probable that this will be incorporated in whatever bill may be passed.

In Berlin, as in many other German cities, the police regulations in regard to the establishment of identity are quite strict.

# AS TO TRUSTS.

Record of Two Great Parties on Legislation.

## DEMOCRATS SIMPLY TALKED

While the Republicans Enacted Anti-Trust Law.

## ONLY COURSE IS AN AMENDMENT

To the Constitution of the United States Which Will Give Power to Congress to Deal Fully With Them — The Present Limitation.

Both the great parties have expressed opposition to trusts in their platforms. The difference between their attitudes is this: The Democrats simply agitate, without offering any adequate remedy. The Republican party has already placed upon the United States statutes all the legislation which congress has power to enact under the limitations of the constitution.

The Democrats began their agitation back in the Fiftieth congress. The house committee on manufactures was authorized to enter upon an investigation. Its report was voluminous, covering a thousand printed pages. It was presented to the house on the day before final adjournment, but with no recommendation as to legislation. In the Fifty-second congress the house judiciary committee made an investigation and reported that, "None of the methods employed by the trusts in controlling the production or disposition of their products are in violation of United States laws." Its report also declared: "It is clearly settled that the production or manufacture of that which may become a subject of interstate commerce and ultimately pass into trade is not commerce, nor can manufacturers of any sort be instruments of commerce within the meaning of the constitution."

It will be noted that these declarations come from a committee with a majority of Democrats, and that they reported that under the constitutional provision which gives congress power only over interstate commerce, that body has not full power to legislate against trusts.

The only effective legislation enacted by congress is the Sherman anti-trust law of 1890, which was passed by a Republican majority and signed by Benjamin Harrison. The Democrats sneered at this bill, alleging that it was merely buncombe, and would be a dead letter. But under this law the supreme court of the United States, on October 24, 1898, held the Joint Traffic association to be illegal and compelled its dissolution. It was composed of some 31 different railroad companies, including all the leading ones of the United States.

Another important decision of this character was that which dissolved the Addyston Pipe & Steel company, a trust composed of six corporations manufacturing and selling iron pipe. These agreed there should be no competition among them, and the territory in which each was to operate was set forth in the agreement.

President Cleveland in his last message to congress admitted that there was a lack of constitutional power to enable congress to deal fully with the trusts, and gave it as his opinion that the state legislatures possessed all necessary power to crush these illegal combinations. But, as President McKinley said in his message last December, "The state authority to which President Cleveland looked for relief from the evil of trusts has failed to accomplish fully that object. This is probably due to the fact that the different states take different views as to the proper way to discriminate between evil and injurious combinations and those associations which are beneficial and necessary to the great business prosperity of the country."

gress to enact such laws to be enforced by federal courts in every part of the country, without interference with the rights of the state. The judiciary committee of the house on June 1 last brought in a joint resolution for a constitutional amendment of this character. It was supported by the Republicans, yet only five Democrats voted for it and it thus failed to secure the necessary two-thirds majority.

One would suppose from reading Democratic papers at the present time that the Republican party was the strong friend and champion of the trusts. The facts are exactly the opposite. The Democrats in congress have talked and blustered and denounced, but have never done anything. When a really effective measure came to a vote they opposed it. The Republicans enacted the only law ever passed on this subject and supported the only remedy which is available.

## OUR LABOR LAWS.

**REPUBLICAN CONGRESS ENACTED THEM FOR THE TOILERS.**

**Here Is the List—Read It Carefully, and Note the Fact That the Democratic Party Can Not Point to a Single Statute of Its Enactment.**

The great revolution, by which labor was exalted and the country freed from the curse of slavery, was accomplished by the Republican party against the fiercest opposition possible by the combined forces of the Democrats and their allies.

**Chinese Coolies Barred.**—This law passed February 19, 1862; amended February 9, 1869; and further amended March 3, 1875. President Grant, in his message of December 7, 1874, laid before congress a recommendation for the enforcement of the law. The legislation on these several acts was accomplished by the Republicans in 1862, in the Thirty-seventh congress, and in 1869, in the Fortieth congress.

**Peonage Abolished.**—This act was passed in the Thirty-ninth congress, when both houses were Republican by a large majority, March 2, 1867.

**Inspection of Steam Vessels.**—Passed during the Fortieth congress, when the Republicans were in power in both Houses.

**Protection of Seamen.**—Passed during the Forty-second congress, when both houses were under control of the Republicans. It was amended during the Forty-third congress, when the Republicans were in control of both houses.

**Padrone System.**—The involuntary servitude of foreigners was abrogated by a law passed during the Forty-third congress, when both houses were under the control of the Republicans.

**Alien Contract Labor.**—Contract-labor law passed the house March 9, 1886. All the votes against the bill were Democratic.

**National Trades Unions.**—Passed the senate June 9, 1886, without division. Passed the house June 11, 1886, without division.

**Payment for Holidays.**—This bill giving full pay for holidays to employees working by the day was passed without division in the Forty-ninth congress, second session.

**United States Convicts.**—This bill prohibiting the contract system of the labor of United States convicts passed the house March 9, 1886. Passed the senate February 28, 1887. All the votes against the bill were Democratic.

**Boards of Arbitration.**—Passed the house on April 3, 1886, with thirty votes against the bill, all being Democratic.

**Hours of Labor.**—Law limiting letter carriers to eight hours a day. Passed in the senate without division.

**Department of Labor.**—Passed the house April 19, 1888. Passed the senate May 23, 1888. All votes cast against the bill were Democratic.

**Allen Contract Labor.**—Passed the house during the Fifty-first congress without division August 30, 1890. Passed the senate with verbal amendments September 27, 1890.

## HON. JOHN HAY.

Earns the World's Respect by His Diplomacy.

## FRANK AND OPEN METHODS.

**Have Made the Term, "New Diplomacy" Honored in Europe—Some Facts in American History That Shows Secretary Hay's Superb Talents.**

Since the beginning of the Chinese troubles, the United States has led diplomatic and military action. In the former, Secretary of State Hay has added to his already great reputation as a diplomat of the first rank. His frank, open and businesslike methods of conducting international affairs was first referred to in Europe, in a half-snoring manner, as the "new diplomacy." The term is now one of honor.

Mr. Hay is no tyro in diplomacy. His talent was so well known that when the Venezuelan matter came up in Mr. Cleveland's administration, the latter gentleman took the unheard-of step of sending a man of the opposite political party to undertake a most delicate and highly responsible mission. That man was Mr. Hay. Secretary of State Olney was convinced

HON. JOHN HAY.

Venezuela had a "case." He determined that Great Britain should submit the boundary matter to arbitration. He convinced President Cleveland that he was right. Then came the latter's celebrated message to congress.

But there was a weak place in the diplomatic machine. Bayard of Delaware, a Democrat of the Democrats, was our minister to England. He was a great admirer of the English, and a prime favorite there because of his pedantic public speeches in which he praised England and her people without stint. He could not be persuaded that Mr. Cleveland was in earnest. He assumed that the message was simply a political expedient—a "twisting of the lion's tail," to influence the elections.

And he, unofficially, assured his English friends that this was the real state of the case. Naturally, they accepted his assurances.

To avoid scandal, but one thing could be done. That was, to send an unofficial representative—an ambassador, if you please—to London, to make the British premier understand the United States was in earnest. Such a thing had never before been done. And John Hay was the man chosen—not because he was a Republican, but because he was the fittest man in the United States for the delicate task. There was no man equal to it to be found in the ranks of the Democratic party.

Mr. Hay discharged his onerous diplomatic task perfectly. England yielded. The Venezuela case was arbitrated. He made Lord Salisbury understand the Cleveland administration was in dead earnest, not playing politics. Nothing in our history ever inspired such respect for the frank diplomacy and stirring courage of the United States government.

When McKinley was elected, he fixed upon Hay as his secretary of state, because of his splendid abilities and his masterly diplomatic methods. But the Cuban trouble was on. War with Spain was possible—nay, prob-

able. He consulted with Mr. Hay. The latter saw that, if we were to be successful in a war with Spain, she must be cut off from aid by other European countries. To prevent a Spanish alliance was the first task. England could prevent it. Hence Mr. Hay was made ambassador to London, instead of secretary of state.

Here was a diplomatic task as difficult as the former one. But Mr. Hay accomplished it. Russia proposed to England that, to prevent war, Spain should be induced to sell Cuba to Great Britain. It was expected that the United States would object to this violation of the Monroe Doctrine; but we would understand that we must reckon with Russia as well as England if we attempted to use force. The reply of Lord Salisbury was that the affair concerned the United States and Spain alone; that, in case of war, England would preserve a strict neutrality, and expect other nations to do the same. John Hay had accomplished his mission. Spain was isolated. The rest is history.

Why can not all Americans rise above partisanship and recognize the truth regarding John Hay—that he is one of the leading diplomats of his time, American to the core, and worthy of their unstinted admiration and regard? He made England arbitrate the Venezuelan boundary question; he prevented Spain's obtaining any European aid, and now he has a task as great, in preventing the dismemberment of China, in order that the open door may be preserved. That he will also succeed in this is the hope of every patriotic American.

## TO THE GERMANS.

**LEADING GERMAN PAPER OF ILLINOIS SPEAKS OUT.**

**Tells the German-American Voters to "Let Well Enough Alone"—A Strong Appeal to the Common Sense of These Citizens.**

The Illinois Staats Zeitung, the leading German daily paper of that state, published in Chicago, has the following strong and sensible editorial article addressed to its German-American readers:

It will be difficult for the Republicans to convince those Germans who are yet undecided as to which party they will support, that a change of administration would be not only a great wrong, but even a national calamity. A wrong, because the present Republican administration has placed our people to better circumstances than they enjoyed under the last Democratic regime, and a calamity because a change to the financial quack, Bryan, as president, would be followed by a financial and commercial crisis which each workingman and business man would feel in his purse.

"Let well enough alone." Had our people obeyed that injunction in 1892, the crisis of 1893 would not have come. It may be an excuse that many of the voters of that time had not yet experienced a crisis and therefore were easily decoyed by the Democrats who promised that with them in control there would come an era of general prosperity. Instead, there came a crash, a crash whose effects are still felt by many.

The Democrats, who in 1893 controlled both houses of congress and had their man in the White House, redeemed none of their promises; on the contrary, the fat years of the Republican administration of 1888-1892 were followed by the extremely lean years of 1893-1896.

On the other hand, all promises made by the Republicans in 1896 have been kept; all hopes based on the change of 1896 are fulfilled.

The Germans know these things and they will be the last to follow the Democratic decoy calls; they will give mature consideration to the matter from now until election day, and on that day they will say to themselves: "Let well enough alone."

It is noted that Mr. Bryan preserves a dead silence with regard to his mis-carried predictions of 1896; but he goes right along with a new set of prophecies, which will be found quite as false as the old.

## THE HANKOW UPRISING

General Olivier Reported as Captured.

### MUST HAVE PASSPORTS TO TRAVEL

Germans Ask the Foreign Office to Demand Damages for Being Thrust From Their Homes in the Transvaal and Brutally Treated by the English.

Paris, Aug. 28.—Official dispatches from Shanghai explain that the Hankow uprising was not due to the Boxers, but a plot organized by the partisans of Kang Yu Wei, the reformer, combined with the secret society known as the "Ko Lao Hui," an anti-foreign organization, who proposed to the southern viceroys a revolt against the Peking government. The leaders of the movement relied especially upon Chang Chi Tung, vice-roy at Hankow, for arms, gunpowder and other agents of destruction.

A proclamation, written in English and addressed to Europeans, was seized. In it the revolutionists declared themselves opposed to the Manchu dynasty, but ready to uphold the present emperor. They expressed themselves as desirous of founding a "constitutional government," of protecting foreigners and Christians, and of supporting the powers against anti-foreign fanatics.

The immediate effect of the movement has been to increase the peril of Europeans. Proof exists of disorder and pillage due to the same movement at widely separated points. The headquarters of the conspiracy is Hankow, from which point it ramified into other provinces.

Several thousands of supporters of the movement have received instructions to demonstrate in the central valley of the Yang-Tse-Kiang, but the viceroy has a sufficient force of regular troops to guarantee the maintenance of order. Twelve of the conspirators have been beheaded.

### BOERS REPORTED BEATEN.

General Olivier, One of the Best Dutch Commanders, Said to Have Been Taken Prisoner.

London, Aug. 28.—Lord Roberts reports as follows: "The Boers have been beaten back by Bruce-Hamilton at Winburg. General Olivier has been captured."

The text of Lord Roberts' dispatch from Belfast, under Monday's date, announcing the capture of General Olivier, shows that three of Olivier's sons also were captured in the attack which the Boers made from three sides on Winburg. Lord Roberts adds that General Olivier was the "moving spirit among the Boers in the southeastern portion of the Orange colony during the war."

General Olivier became famous for his masterly retreat from the Orange river district along the Basutoland border. Harassed as he was by 30 miles of wagon train, he made the long march, escaping through the trap set across his path by General French with a force of 16,000 cavalry, and finally formed a junction with the Boer army of the Transvaal.

### ILLTREATED BY ENGLISH.

Hundreds of German Subjects Ejected From the Transvaal.

Berlin, Aug. 28.—A deputation of 400 German subjects residing in the Transvaal has arrived here to lodge a complaint with the German foreign office regarding alleged cruel treatment at Johannesburg. They assert that 400 German subjects of both sexes were arrested there and sent to a seaport, from which point they were shipped to Flushing, where the British landed them penniless. They were arrested, according to the statement of the deputation, in shops and taverns and even in their beds, and were hurried away barefooted and only half-clad, losing everything they had.

They are now urging the foreign office to demand damages for the brutal treatment and loss of property.

## A DAY IN WALL STREET

Weakness In Sugar Accounted For by the Approaching Quarterly Dividend—Market Generally Dull.

New York, Aug. 28.—There was some disposition to sell stocks Monday, and the market showed a settling tendency throughout. Sugar absorbed close to one-fourth of the day's total dealings, and its marked weakness doubtless had some sympathetic effect on the rest of the list. Sentiment was affected also by the apparent abandonment of any pool operations for a rise. Unless the weakness of Sugar might be called such, there was no urgency in the liquidation, but there was an absence of buying demand. The weakness of Sugar found no explanation in any news announcement of the day. The approach of a quarterly dividend period gives opportunity for the usual manipulation of the stock, and the board-room traders jubilantly trail on any movement in the speculation which promises an appreciable movement of prices. The stock got down to within  $\frac{1}{2}$  of 118 and closed only a fraction above that up owing to the demand from the room shorts.

Pressure against People's Gas and Brooklyn Transit seemed to be coupled with the movement against Sugar in the early dealings, and later American Tobacco was forced down, but these stocks, except the last, showed a tendency to recover. Brooklyn Transit rising above Saturday's level. Losses extended to a point or over here and there in other stocks, and New Jersey Central fell  $\frac{1}{4}$ . London discounts hardened, and while money conditions in Berlin are for the moment easier, expert authorities affirm that very heavy obligations will have to be met in that market during the coming month and later. Available funds in New York continue apparently abundant, but the season for the interior movement of currency is fast approaching.

The market was dull and reactionary. Total sales, par value, \$770,000. U. S. new 4s advanced  $\frac{1}{2}$  per cent in the bid price.

### THE RAILROAD BRIDGES.

Secretary Root Has Approved the Engineers' Suggestion.

Washington, Aug. 28.—Secretary Root approved the recommendation of the engineers relative to the repairing of the Pennsylvania railroad bridge across the Allegheny river at Pittsburgh.

The bridge will be repaired as proposed by the railroad company, and the company will not be required to elevate it 50 feet, as demanded by certain interests on the river. It is provided, however, that in case the other bridges across the river at this point are elevated the Pennsylvania company also will be compelled to elevate its bridges.

### CHOLERA AT SIMLA.

People Dying; at the Rate of 3,000 a Week.

London, Aug. 28.—"The present epidemic of cholera," said the Simla correspondent of The Daily Mail, "is one of the worst outbreaks on record. The bubonic plague is child's play compared with it.

"The natives are dying like flies at the rate of 3,000 a week. The epidemic is undoubtedly due to the pollution of the scanty water supply during the famine."

### Anarchist Bressi Attempted Suicide.
